

HINDU ASSASSIN REFUSES TO TALK

Slayer of Sir William Curzon Wyllie in London Keeps Secret.

CRIME THOUGHT TO BE ONLY POLITICAL

Assassin Says Killing of Dr. Lalcaia Was Purely in Self Defense.

London, July 2.—Madera Lelof Dhinagari, the Indian student who last night shot and killed Lieut.-Col. Sir William Curzon Wyllie and Dr. Lalcaia, of Shanghai, at the conclusion of a public gathering at the imperial institute, was arraigned in the Westminster police court this morning and remanded for one week after being formally charged with wilful murder.

In the dock the prisoner appeared quite unconcerned. He stood with his hands in his pockets and shook his head negatively when asked if he wished to say anything. Subsequently he said that he had not wilfully killed Dr. Lalcaia. "I saw him advance and then he caught hold of me; I fired in self-defense," he declared. The proceedings lasted only a few minutes and the Hindu prisoner was removed to jail under a strong guard. The prisoner, whose age is given as 26, is said to have relatives in good standing in Calcutta.

Murder Entirely Political.

At the India office the murder of Col. Wyllie, who was a political aide-camp to Lord Morley, secretary of state for India, is held to be entirely political. Col. Wyllie, so far as is known, had no personal dealings with Dhinagari, and the India office view is that the outrage was due to some grievance against the system of government.

The National India association, under whose auspices the gathering at the imperial institute was held, was formed for the purpose of establishing friendly relations between the peoples of Great Britain and India.

It is reported that the prisoner has made a lengthy statement to the police setting forth in detail his political grievances, but that this is being withheld until the authorities have time to make full inquiry.

Seditious Students Active.

The Indian students generally profess detestation of the crime, but nevertheless many of them are known to be active members of the London branches of the societies conducting a campaign of sedition and anarchy in India.

Scotland Yard recently received information which led to increased activity in investigating the movements and antecedents of certain Indian students here who, it is alleged, had designs on prominent English officials. Lord Morley himself for some time past has been under police protection.

Wyllie, who had held important Indian appointments, fell dead on the spot.

Mr. Lalcaia showed signs of life after he fell and was hurried to St. George's hospital, but on arrival there it was found that he was dead.

Those near the assassin seized and held him until the arrival of the police. He had two revolvers, a dagger and a knife. All were new and it is believed that the crime was premeditated.

Threatened Throat-Cutting.

The Hindu came to London from Punjab some years ago. He belonged to the advanced section of the Indian nationalist party and has been taking a course of engineering at the London university. During the commemoration of the Indian mutiny he attracted attention by wearing a badge inscribed: "In memory of the martyrs."

Testified by some of his fellow students Dhinagari threatened to cut the throat of one of them. He was a frequent visitor of India house, the local center of the Indian agitators.

From statements made by students it appears that Dhinagari and Lieut.-Col. Wyllie had met once previous to

PEOPLE OF MESSINA STILL ALARMED BY SHOCKS

Earth's Tremblings Still Felt—Spain Shaken by an Earthquake.

Messina, Sicily, July 2.—The people of Messina, although still alarmed as a result of the earth shocks of yesterday morning, are beginning to return from the country. The local authorities have adopted stringent measures to prevent any occupying houses that are not considered safe.

The shocks continued today but they were less frequent and of diminishing severity.

SPAIN FEELS EARTH SHOCKS.

Alicante, Spain, July 2.—Three earth shocks were felt here yesterday afternoon. At Torrevieja and surrounding towns the walls of many houses were cracked and other damage was sustained. The fear-stricken occupants rushed to the streets, but so far as known there were no casualties.

FLYING IS SAFER THAN MOTORING

Dayton Aeroplanist Says the Aeroplane Has It on Automobile.

PREPARING FOR A GOVERNMENT TEST

In Flights at Fort Meyer Thursday New Machine Does Wonders.

Washington, July 2.—"I would rather fly over that country in our aeroplane than ride over it in your automobile," said Wilbur Wright yesterday to a scouting party preparing to traverse the dusty red Virginia roads between Fort Meyer and Alexandria, along the course over which his brother is soon to fly. "You are liable to get stuck somewhere, besides being covered with dust."

In point of fact, the automobile did puncture a tire and the stifling heat along the bottoms and through the woods was all but intolerable.

Course for Official Flight.

The course over which will be made the official flight for which the Wrights are preparing begins at Fort Meyer, across the river from Washington, on a relatively high plateau and extends somewhat east of south five miles to the turning point on a hill, westerly from Alexandria, which will be made visible from Fort Meyer by a small bright yellow balloon marking its location. The country between is broken and rather heavily wooded, but at intervals there are open fields offering landing places in case of emergency. This broken country involves consideration of many scientific problems and the experiment is expected to be of unique value in the development of aeronautics. This will be the first flight across broken country in a heavier-than-air machine. Last evening the flight over the open and level parade ground at Fort Meyer exhibited curious effects of buildings and foliage upon the atmospheric currents and the conditions over an extensive and exceedingly diversified area will be studied with great interest by the Wright brothers and by the army signal corps officers.

Will Reach Altitude of 500 Feet.

The highest altitude yet negotiated by the Wrights in their aeroplanes is 364 feet—Wilbur made the height for a prize in France; at one point in the Virginia course, if he maintains a level flight, he will be fully 500 feet above the ground.

The specifications under which the Wrights secured the contract with the government under which they will, if successful, receive \$25,000 for their machine, were generally regarded when they were made as well-nigh prohibitive. Yet, while the task is one involving untried conditions, Orville Wright seems not in the least concerned about it. He has gone by automobile over the course twice with the signal corps officers and while the route is not what he would prefer he seems to entertain no thought of failure. His brother Wilbur appears equally confident.

Will Demonstrate Vital Point.

This test is expected to demonstrate the value of an aeroplane in military service. It is not known whether the tendency of an operator flying across rough country will be to follow the inequalities of the topography. If Orville Wright can fly a level course he would be practically safe from the attack of imaginary troops in the valley of Four Mile Run, which flows across the middle of the course. If on the other hand through absence of marks

BANKERS ARE HELD ON CHARGES OF LOOTING

President, Cashier and Assistant at Ironwood, Mich., Under Bonds.

Ironwood, Mich., July 2.—President H. F. Jahn, Cashier T. E. Larsen, and Assistant Cashier George H. Meadow, of the First National bank of this city, have all been bound over to the federal grand jury which meets at Marquette, Sept. 7. The charges against them are the outgrowth of the failure of the bank which was closed last week by the federal authorities. Meadow is in jail at Beshmerville in default of \$50,000 bail while Jahn furnished \$25,000 and Larsen \$10,000 bonds.

The bank had about \$600,000 in deposits and the receiver has now in his hands about \$100,000 in quick assets. It is not known what amount can be realized on other assets. The loss to depositors will probably be heavy as it is alleged that Larsen has in the past two years embezzled to the extent of \$200,000 of the bank's funds. Larsen has also been charged with making false entries, setting forth that the bank owned \$75,000 more in bonds than it held, and with taking \$32,000 from the deposit box of a depositor and putting it with the bank's cash to swell the assets.

The president is accused with aiding and abetting the cashier in falsifying. The assistant cashier faces a similar charge and also one of embezzling \$1,500.

CORNELL WINS FOUR OARED RACE IN REGATTA

Ithacans Set a New Mark for the Event on the Hudson Course.

Poughkeepsie, July 2.—The crews in the four-oared shell race, two miles, were sent off this afternoon.

Columbia was a little in front, Cornell second, Syracuse third and Pennsylvania fourth.

Nearing the quarter Cornell was in the lead, Columbia second, Syracuse third and Pennsylvania fourth.

At the half Cornell led with Syracuse and Columbia almost on even terms over a length behind. Pennsylvania was a half length to the rear. Cornell was increasing her lead.

At the first mile Cornell had a lead of several lengths of open water. Columbia second, Syracuse third by a scant few feet and Pennsylvania fourth by three lengths.

At the six and half Cornell led by five or six lengths of open water; Syracuse and Columbia were on even terms in second place. Pennsylvania was many lengths in the rear.

Neither of the crews kept the original course.

At one and three quarter miles Cornell still led by many lengths with Syracuse apparently second; Columbia third by a half length, Pennsylvania last.

Cornell broke the record for four-oared crews on this course. Official time: 10:01; Syracuse, second, time, 10:10; Columbia, third, time, 10:12; Pennsylvania, fourth, time, 10:27. Cornell, Syracuse and Columbia were all under the record for the course made by Syracuse in 1905.

GREAT STRUGGLE PROMISED.

Poughkeepsie, N. Y., July 2.—Over a course rich with memories of former aquatic struggles, college crews from Columbia, Cornell, Pennsylvania, Syracuse and Wisconsin were matched to row today in the annual regatta of the Intercollegiate Rowing association. Three events were scheduled for today: the two-mile race of the university four-oared shells at 3 p. m. for the Kennedy challenge trophy, now held by Syracuse; the freshmen eight-oared two-mile race at 3:45 p. m. for the Stewards' cup, which was won last year by Cornell; and the university eight-oared race over a four-mile course for the varsity challenge cup, which for the past year has been in the keeping of the Syracuse navy.

Chief interest, of course, centered in the contest of the varsity eights which was time due start at 5 p. m. Cornell was expected to win.

GREAT STRIKE WILL SPREAD TO MANY MORE MILLS

Struggle of Amalgamated Association for Open Shop Big Contest.

Pittsburg, Pa., July 2.—The present strike of the Amalgamated Association of Iron, Steel and Tin Workers against the American Sheet and Tin Plate company, which started after midnight yesterday, involving all of the union plants of the United States Steel corporation's subsidiaries will be extended materially, it is said, by a strike of the Tin Plate Workers' International Protective association.

The wage scale of the latter organization expires July 15 and at New-castle three thousand additional men, it is said, propose to quit work.

Whether the second strike against the American Sheet and Tin Plate company will affect the mills throughout Pennsylvania, Ohio, West Virginia and Indiana is not known as yet.

In the event the strike is general the number of men affected will total nearly 25,000.

HAD VALUABLE PAPERS.

Insane Man Had Been Saving Up All His Earnings.

Thomas Bodell, a coachman about the city for a number of years and pretty well known from the fact that he is a hunchback, was placed in the hospital ward of the jail yesterday pending an investigation as to his sanity. When he was searched he had over \$5,000 worth of good paper on his person, representing his savings for several years.

It is said that his insanity is largely due to his infatuation for a woman of the lower world of whom he has become enamored. He had been rooming at 924 Clinton street.

SCOTT JURY SPENDS A LONG TIME ON EVIDENCE

Late This Afternoon No Signs of an Agreement Were Shown.

[Special Correspondence.]

Columbia City, Ind., July 2.—The jury in the John E. Scott murder trial here had not reached a verdict at 3 o'clock this afternoon although the men had been considering the evidence since a few minutes past 9 o'clock. Court was adjourned at 3:30 o'clock this morning, half an hour earlier than usual and the jurors were given the benefit of a night of rest at their homes before they were asked to take up their deliberations. Judge Wright allowed the men to separate at the close of the arguments.

Nothing at all had been heard from the jury room up to 3 o'clock and there had been no call for further instructions and the defense is in hope that there will be either a disagreement or an acquittal, as the attorneys believe the long delay is favorable to their client.

A crowd waited in the court room most of the day for the verdict although the numbers were greatly decreased when at noon there were no signs that there would be a report. The men were taken to their dinners in a body for the first time since the trial commenced.

Prosecutor Albert E. Thomas left shortly before noon for Fort Wayne after he had made arrangements to be notified as soon as the verdict is rendered.

Scott was taken back to jail to await the finding of the jury but his wife remained about the court house all day anxiously waiting for the finding of the jury.

GATOR TRAINER IS BADLY BITTEN IN PARIS

American Woman Has Arm Crushed by Jaws of Huge Saurian.

Paris, July 2.—"Princess Sylvia," an alligator trainer, said to be an American, was attacked by an alligator today in the presence of a big crowd at Luna park while putting the vicious animal, which recently had been brought out from Florida, through a series of exercises. The alligator seized and crushed the woman's right arm in its jaws. With rare presence of mind she drew a revolver with her left hand and emptied the five shots into the alligator's head. It let go its hold and the woman was removed from the cage. Her injuries are not fatal.

Dr. Maurice Rosenthal, Maurice Lohman, Budd Van Swearingen and Dr. Ferguson, the latter of Chicago, will leave this evening for the Rosenthal cottage at Walloon lake.

TAKE A SOAK AT TOBACCO TRUST

Finance Committee of Senate Will Raise the Schedule Some.

COUPONS TO BE KEPT OUT OF PACKAGES

Income and Corporation Tax Debate Takes Up Time of the Senate.

Washington, July 2.—Republican members of the finance committee of the senate have agreed upon a general advance in the tobacco schedule. The increase on cut and plug tobacco and cigars and cigarettes amounts to about 20 per cent. over the house rates.

The finance committee's sub-committee on tobacco today decided to prohibit coupons in tobacco and snuff packages.

DEBATE ON INCOME TAX.

Washington, July 2.—Senator Aldrich, chairman of the finance committee, was in his seat when the senate convened today with a full quorum to proceed with business. While Mr. Aldrich did not reveal the secret of his whereabouts during his two days' absence from the senate, his complexion was so much ruddier than it is ordinarily that it was evident that he had put in most of his time in the open air. His return caused much gossip as to the possibility of getting a vote on the income tax proposition. Most senators believed the end was near. Senator Heyburn lost no time in taking the floor to present a technical objection to the bill.

Heyburn's objection was that the amendment was too indefinite to make it operative. The first provision of the bill fixes a tax of 2 per cent on the net income of corporations "with a respect to the carrying on or doing business by such corporations."

States Some Objections.

The Idaho senior senator contended that under this language it would be quite impossible to determine the object of the bill or to enforce its provisions because of its vagueness. He also claimed that the tax being levied on all corporations "organized for profit" included corporations that do no business except to collect rents, which, he said, would be bringing it nearly within the scope of the Pollock case, in which the income tax was declared to be invalid.

These objections provoked comment by Senators Aldrich, Root, Brandegee, Nelson and others. Mr. Aldrich suggested that the language called into question had been passed upon by many distinguished lawyers. Mr. Nelson claimed that the case of a real estate company was within the exception to this rule cited by the supreme court. Senator Root gave assurance that those objections would receive careful consideration by the finance committee, although he said he believed the amendment was framed as such to insure its constitutionality.

A Lack of Dignity.

Senator Brandegee came to the support of Mr. Heyburn. He suggested that there had been no definite understanding in the senate as to just what was meant by the language "with respect to" the carrying on of business and said he did not think it "became

WABASH COMPANY IS READY FOR THE WORK

Adjustments are Made and Resolution Will be Confirmed.

At a consultation with the Wabash officials this morning at the city hall all of the details for the separation of grades at Calhoun street, Fairfield avenue and Broadway were completed and on Tuesday afternoon the board of public works will confirm the resolution which will go to the city council for final approval and after the legal time has been allowed to elapse the actual work will be taken up.

There were only a few minor details to be completed, all of which were upon technical questions, and following the consultation City Attorney Colerick and Chief Engineer C. O. Cunningham drew up a memorandum of the contract and the latter stated that so far as the Wabash is concerned the work will proceed without further hindrance.

None of the companies has waived any of its rights in the matter and still has the privilege of remonstrating, but the conferences have been held for the purpose of getting together on the matter and all of the interested parties tacitly admit that as things now stand they can now see no reason why the matter will not proceed as soon as the legal requirements have been completed.

In the plans there has been little departure from those outlined in the conferences and made public and all of the arrangements have been settled between the parties. There were at the meeting today for the Wabash Vice President Henry Miller, General Superintendent S. E. Cotter, Superintendent J. C. Sullivan and W. S. Dances. The mayor, board of works and city attorney represented the city.

CARRIED BOARDS FOR OWN COFFIN

Five-Year-Old Lad Murdered in Virginia by Brutal Stepfather.

TAKEN AWAY FOR FEAR OF A MOB

Shocking Crime is Related by the Mother of the Little Victim.

Cumberland Gap, Tenn., July 2.—David Moore and wife are in the Jonesville Virginia jail, where they were taken last night to escape probable violence at Erwin, Va.

Moore is charged with having murdered Harry Lee Nutshell, his 5-year-old stepson.

The boy died last Sunday and Moore is said to have said that he died of fever.

No physician having attended him, however, suspicion was aroused and the body was exhumed yesterday.

The head and body was found to be terribly bruised and the boy's mother made a confession in which it is said she charged that Moore had caused the boy's death.

It is said Moore compelled the child to carry lumber from a saw mill with which the coffin subsequently was made.

FORT WAYNE EFFORT IS ATTRACTING ATTENTION

American Civic Association Offers Aid in City Beautiful Movement.

From many sources is coming evidence that Fort Wayne's recent start in the civic improvement and city beautiful effort is attracting widespread attention. The most recent illustration of this fact comes with the tender of the good offices of the American Civic association.

This was conveyed in a letter from the president, J. Horace McFarland, of Harrisburg, Pa., who writes Postmaster Hanna to extend his congratulations to the city of Fort Wayne upon its awakening to the city betterment movement. Mr. McFarland explains that the American Civic association is organized to aid in securing "a better and more beautiful America," and that it is anxious to be of service to Fort Wayne in this capacity. The association wants to be put in close touch with the work in Fort Wayne, and it will gladly advise with expert suggestions that may prove helpful.

Forestry Expert Next.

A proposition is now before the civic revival organization to bring to Fort Wayne a forestry expert in the person of Martin L. Davey, of Kent, O., to give a lecture on the planting, care and preservation of shade trees. It is pointed out that frequently great, magnificent shade trees that have taken fifty years to grow are either cut down or allowed to die for want of expert care, and that in all probability some expert advice along the lines of caring for the trees would be valuable. Charles Mulford Robinson, the city beautiful expert, on his recent visit here, declared that Fort Wayne was particularly fortunate in the number and magnificence of its stately old shade trees.

PRIEST IS OVERCOME BY HEAT AT NIX SETTLEMENT

Rev. John Biederman is Seriously Ill as Result of Sunstroke.

Rev. Father John Biedermann, formerly assistant pastor of St. Peter's Catholic church in this city, is reported to be seriously ill at his home in Nix settlement, Whitley county, as a result of sunstroke which he suffered Thursday afternoon.

News of Father Biedermann's illness reached the city Thursday evening in a telephone message to friends of the stricken clergyman, and early today Rev. Charles Thiele, of St. Peter's church, and a brother of Father Biedermann left for his bedside. It was their intention to bring Father Biedermann to St. Joseph's hospital in this city if his condition was such that he could make the journey safely.

HINDU ASSASSIN REFUSES TO TALK

[Continued from Page One.]

the tragedy of last night. Dhinagiri's brother, who is a doctor in Calcutta, hearing of his association with the political extremists of India house, wrote to Lieut. Col. Wylie asking him to try to influence the student. Wylie saw Dhinagiri, but the interview appears to have only embittered the student, who nursed his resentment pending a favorable opportunity for revenge.

Assassin Wore Turban.

The gathering at the Imperial institute, a building devoted to Indian and other colonial functions, was an "at home" to Indian students.

D. W. Thornburn, one of the guests, thus graphically describes the scene attending the murders.

"It was near 11 o'clock and the musical program was just concluding when I saw a middle aged English gentleman conversing with a young Indian student dressed in a dark jacket and wearing a pale blue turban.

"Suddenly the native drew a revolver and fired four shots with the greatest rapidity, full at the head of the Englishman. The shots were fired with the muzzle of the weapon close to the victim's face.

"Then came another shot, as the Englishman fell, and a sixth, which struck an elderly Indian gentleman standing a few yards off and who fell, wounded in the side.

"I rushed at the assassin and others sprang forward at the same time. We seized him, but he struggled, and, wrestling one hand free, placed the revolver to his forehead and pulled the trigger. It clicked harmlessly, as he had fired all of his cartridges.

"We shouted for doctors and the police. Meantime there was a terrible scene of confusion and the folding doors were finally closed to prevent the people from looking on the fearful sight.

"A doctor in the hall came forward and knelt at the side of the Englishman. After an examination he said: 'Nothing has been done for him.'

"At this moment some one exclaimed in a horror stricken voice, 'Why, it is Curzon, Wylie.'

"Then a stately woman in evening dress came upstairs from the cloakroom to discover what had happened. Looking at the recumbent figure and not immediately recognizing it she said, 'Poor fellow.'

"She then knelt down, and as she looked closely at the disfigured face a look of horror leaped into her eyes and she exclaimed:

"It is my husband! Why wasn't I with him?"

"It was Lady Wylie, who had left her husband only a few minutes before.

"The scene was too terrible, the lady kneeling by the side of her dead husband, while a group of men near by were holding the assassin, whose other

victim was groaning on the ground a few yards away.

"Other doctors came, but they could not wound on Lalac's body until the clothing was removed, when a tiny stream of blood from the side revealed the position of the injury. Screens were placed around the victims and the awestricken people quickly left the hall."

Assassin Walking Arsenal.

The victims were placed in ambulances and removed to a hospital. Detectives searched the assassin. Besides two revolvers, a twelve inch dagger was found and a card bearing the name of "Dhinagiri." The address was Ledbury road, Rayswater. Various papers and letters also were taken from the prisoner.

Sir William lived at the Savoy hotel with his wife and some Indian friends. From the Savoy he proceeded to the "at home," which was held under the auspices of the Indian association, with which he was connected. Several hundred Indian students attended the function.

The attack on Sir William occurred on a wide square landing leading to the staircase, which had been used as an overflow smoking room. Sir William and Lady Wylie were just preparing to depart when the former was approached by the Indian student. One bullet shattered the right eye and another pierced the face just below the left eye. The body was taken to Sir William's late residence on Orslog square.

Written Reasons Explain Crime.

Dr. Dalcava was a Parsee, and from present evidence it would seem that he was shot accidentally. The assassin, who also is a Parsee, is about 25 years of age. He was cool and self-possessed after his arrest. He maintained an obstinate silence.

The identification of the man so far has been impossible, as a great number of visiting cards bearing different names were found on him.

It is reported that he had in his possession written documents setting forth reasons and justification for the crime.

Lieut. Col. Sir William Hutt Curzon Wylie was born in 1848, being the youngest son of the late Gen. Sir William Wylie, G. C. B. He had been political aide de camp to the secretary of state for India since 1901.

POLITICAL UNREST IN BENGAL.

Calcutta, July 2.—There is at present a recrudescence of political excitement in eastern Bengal and meetings to express sympathy with natives who have been deported are of almost daily recurrence. Arshind Ghose, one of the most prominent of the Indian agitators, is traveling through the country in the interests of an anti-government campaign. He is preaching that the "fit of God has gone out to the Indian nation to unite, to be free and to be great."

the dignity of congress to use phrases of that kind and have it appear in the record that congress had no definite idea as to what it meant."

He declared that it could hardly be contended that congress could question the right of a corporation chartered by a state to carry on its business.

Saying he preferred voting for an income rather than a corporation tax, Senator Ralby declared that he would vote for the pending corporation tax if he could not have his first choice.

"I believe," he added, "that this is an absolutely constitutional measure. This bill is unjust and inequitable, but when I cannot obtain an income tax I will be forced to vote for this amendment or leave the government bankrupt."

One Per Cent. Suits Elkins.

Senator Elkins asked if 1 per cent. would not be a sufficient corporation tax.

Mr. Aldrich replied that he had estimated that the revenue from the corporation tax provision would be at least twice the amount estimated by the president or \$50,000,000. He said there was no satisfactory way of telling what the revenue from this source would be. If there should be "enlarged extravagance" there would not be enough revenue, but if an era of economy was to be entered upon he declared that the bill "as it now stands will be sufficient to meet all expenses of the government."

FLOODED CELLAR IS BASIS FOR A LAW SUIT

Mrs. Sawtell Seeks to Recover Damages—The Court Notes.

Emma C. Sawtell has entered suit in the superior court against the city of Fort Wayne in which she demands \$1,500 damages alleging that during the recent heavy rains her cellar was flooded and her canned fruit, meat and provisions ruined and her house made unwholesome.

It is charged that the manhole in the sewer was stopped up and that it caused the water to back into the cellar of her home. The house is located on Fox avenue and the suit was filed by Judge R. B. Dreibeis.

by which to judge and hold his level he follows the varying height of hill and dale, he will lose much headway and may fall of the thirty-six mile speed required by the government. He has three chances to "make good" in official trials.

Makes Successful Flight.

Orville Wright last yesterday encircled the Fort Myer field grounds time after time in his aeroplane in three successful flights, while thousands cheered him.

After the unsuccessful attempts of the previous two days, the performances were inspiring. While the machine oscillated at certain points, and dipped and rose suddenly at others, it was evident from the regularity with which these things happened that they were due to the condition of the atmosphere and not to any fault of the machine.

Shortly before 6 o'clock the aeroplane was wheeled from the shed to the starting track. The damage sustained in Wednesday's flight had been repaired by splicing a new piece to the broken skid.

He the Start Was Made.

After the motor had been tested the weight which gives the aeroplane its start was hoisted up and all was ready for a flight. The propellers were cracked and Orville turned on the motor.

The screws whirled around at what seemed like greater speed than on the previous occasions, and as Orville climbed into his seat Wilbur put his hand on the right wing ready to run along with the machine. Nodding to his brother, Orville released the machine and it started down the track at a rapid rate. As it neared the end of the starting rail Orville turned up the forward horizontal rudders and the machine rose into the air.

It was a beautiful start and the crowd cheered heartily. Down the field the aeroplane sailed, curved gracefully about the lower end and back up the east side of the field, along the edge of Arlington cemetery.

Wright was making short turns, but as he seemed to gain familiarity with the ground over which he was traveling, he increased the radius of his trips about the field. The first round was made in fifty seconds. Five times the machine skirted the field.

Swoops Down to Perfect Landing.

On the sixth round Wright came to earth within a few hundred feet of the starting point, completing the flight in exactly five minutes. The landing was perfect, the machine swooping down in successive glides until within a few feet of the earth, when Orville pulled the string which stops his motor and the aeroplane glided smoothly over the grass on its skids until it came to a stop.

The machine was returned to the starting apparatus, while the brothers held a consultation. Again the aeroplane was placed in position and another flight essayed. The start was as successful as the first.

In his last attempt Orville remained aloft for a few seconds more than nine minutes and encircled the field nine and one-half times. For one complete round he flew close to the ground, evidently preparing to land. This he did within 200 feet of the aeroplane shed. During this last flight he went higher than on his previous trials, reaching a height of forty feet.

BREAKING UP BUCKET SHOPPING.

Western Union Company and Option Broker Indicted.

Cincinnati, O., July 2.—The grand jury today returned indictments against the Western Telegraph company and Rinkham H. Morehead, the latter being charged with running a bucket shop and the former with aiding and abetting by the leasing of wires for the transmission of information and money.

The indictment of the Western Union is an innovation in the fight of County Prosecutor Hunt to rid Cincinnati of bucket shops.

Morehead is alleged to be connected with the Consolidated Stock and Grain company which has been raided in a spectacular manner by Prosecutor Hunt.

Kiel, July 2.—Professor H. Hergesell of the University of Strassburg, has turned over to Emperor William complete plans for the proposed Zeppelin trip to the north pole. He explained the idea also to the Kaiser of Monaco, who probably will give financial assistance.

WITH COMPANY 13 YEARS.

It was just thirteen years ago yesterday that George F. Fox entered the employ of the Home Telephone company as a collector and since that time he has come to be the assistant secretary. When he first entered the employ there were just seven hundred phones in use here and the telephone directory, which will be issued on the 10th of this month, will show 5,290 names.

E. N. Detzer, of the First National bank, arrived in the city last evening on his return from Denver and Seattle. Mr. Detzer was the Fort Wayne delegate to the national convention of the American Institute of Banking.

NEW COMMITTEE TO ASSIST IN CITY CAMPAIGN

Chairman Gandy Names a Board of Advisors—Political Notes.

Chairman C. M. Gandy, of the democratic city central committee, has announced the appointment of an executive committee composed of one member from each ward to assist and advise in directing the work of the city campaign. The appointments are:

First Ward—W. C. Baade; second ward, George H. Viberg; third ward, Joseph F. Getz; fourth ward, Louis S. C. Schroeder; fifth ward, W. H. Shambaugh; sixth ward, August Rietmiller; seventh ward, Michael Kinder; eighth ward, J. McBeth Smith; ninth ward, William A. Bayner; tenth ward, Philip H. Wyss.

The selection of clerks and judges for the primaries on July 23 was not entirely completed at the meeting of the democratic central committee Thursday evening. Another meeting will be held July 19, when all candidates for nominations must be present and pledge themselves to the support of the ticket, regardless of the outcome of the primaries.

Official announcements of candidacy were filed today by John J. Bauer as councilman-at-large, William Goodfellow, seventh ward, and William J. Fuhrman, sixth ward. All are democrats.

Twenty-two voting machines have been placed about the city to allow voters to become familiar with their operation in advance of the primary. They are located in all the wards save the Fourth and Tenth, and others will be placed in these wards as soon as locations can be secured for them. Machines already located are at the following places:

First Ward—Weber's drugstore in Lakeside, and at the corner of Monroe and Madison streets.

Second Ward—City hall and Wilkins' drugstore, 1509 Spy Run avenue.

Third Ward—Lee Evans' cigar store, West Berry street, and Hoham's drugstore, South Calhoun street.

Fifth Ward—Hutzel's drugstore, West Main street; Hausch's shoe store, 1425 West Main; Smith's pool room, Broadway, near Jefferson street; Baral cigar store, 1310 Broadway.

Sixth Ward—Clapesattle's drugstore, 2314 Broadway; Soest's drugstore, 2312 Calhoun; Clark's barber shop, 1225 Broadway; Miller's drugstore, Fairfield avenue and Duval street.

Seventh Ward—Heinrichs drugstore, Lafayette and Pontiac; Fairs drugstore, 1922 Hanna street.

Eighth Ward—Schefmann's grocery, Wayne and Francis streets; Melzner's drugstore, Maumee avenue; Melzner's drugstore, 1420 Walton avenue.

Ninth Ward—Albersmeyer's drugstore, Wells and Third street; Brink's drugstore, Wells and First street; Stelhorn's drugstore, St. Mary's avenue and High street.

On the voting machines the democratic sample ballot will be printed on light pink paper and the republican sample ballot is on light yellow paper.

BODY OF A WHITE BOY, NOT OF A CHINAMAN

Supposed Remains of Leon Ling Prove to be of Somebody Else.

New York, July 2.—The body, supposed at first to be that of a Chinaman, which was found in the Hudson river last night was not that of Leon Ling, who is charged with the murder of Elsie Sigel. After an autopsy today Dr. Thomas Curtin, coroner's physician, declared the body was that of a white boy not more than 16 years old.

The discoloration following long immersion gave the body the appearance of that of a Mongolian and it was not until after a careful examination that the police were convinced that the search for Leon is still unfinished.

That the body was that of Leon Ling was strongly affirmed by a reporter who viewed the remains at Fordham morgue. "This is undoubtedly the body of Leon Ling," the reporter said.

"I knew him well at Fort George all last summer. He was running a pin game there. I recognize him by his hair and generally by his appearance. If I could see his teeth which were very fine and regular, I could make this identification doubly positive. I have no doubt that it is Ling."

In the effort to fully establish the identity of the corpse several other persons who knew Leon well were taken to the morgue today to view the body and if necessary members of the Sigel family will be asked to aid the police in this respect. The height, weight, complexion and certain peculiarities of physical appearance of the dead man correspond with those attributed to Leon in life. The absence of clothing on the drowned man, except a silk undershirt, is one of the baffling features of the case.

PROMOTED FOR EFFICIENCY.

New York, July 2.—Announcement was made yesterday at the offices of the Delaware, Lackawanna & Western Railroad company that the following promotions had been made in recognition of efficient service: J. H. Crawford, general freight agent, promoted to assistant freight agent; Nat. Duke, general freight agent, promoted to general freight agent; and Charles F. McTague, commercial agent at Cleveland, promoted to general eastern freight agent at New York city.

TOLEDO READY FOR GREAT MARTIAL TOURNAMENT

Camp of Five Thousand U. S. Regulars—Famous Regiment There.

Toledo, Ohio, July 2.—A tented city arose today at Bayview park, overlooking Maumee bay, where the military tournament of the department of the lakes will be held, beginning Monday and continuing until Saturday night. Five thousand soldiers from various army posts detained today. General Frederick D. Grant, commander of the department, was expected to arrive from Chicago with Mrs. Grant at 1:45 this afternoon.

The Old Second Infantry.

Two battalions of the Second Infantry, U. S. A., have been ordered to Toledo for the tournament and the assembled thousands will then gaze upon a regiment which has had much to do with making history for our country.

It is of special interest to those citizens of the three states whose borders join within a few miles of Toledo to recall that the Second was a portion of the command under General "Mad Anthony" Wayne, who put the final finishing touch on that region in the border wars with the Indians from 1792 till 1795.

The Second Infantry was authorized in 1791, and by that act congress doubled the infantry forces of the United States. In the fall of that year the regiment was ordered to Fort Washington, now Cincinnati, and under General Sir Clair began the momentous campaign against Little Turtle. This war was continued by General Wayne and the Miami Indians were signally defeated by him at the junction of the Maumee and Auglaize in 1794.

Kept on Fighting.

For eleven more years the Second engaged in continual small wars in the northwest, when it was ordered to take station in New Orleans. This brought the regiment into the theater of the war of 1812, and it fought steadily against Creeks, Cherokees and British until peace was declared in 1814, having won undying fame for its brilliant defense of Fort Boyer, in Alabama, against overwhelming odds.

When the Black Hawk war broke out the regiment was gathered from various northern stations and moved to Fort Dearborn, Chicago. Following this it next saw service in Florida, under General Zachary Taylor and a few years later took a gallant part in the war with Mexico under the same commander.

The Second saw all of the important Mexican battles, occupied the most dangerous position during the capture of the City of Mexico, and was the first to enter the captured city.

In the civil war the Second again upheld its high reputation and was in twenty great actions, as well as numerous skirmishes and minor engagements, ending with the operations against Richmond.

In 1878 and '79, and again in 1890, the regiment saw active service in the Indian campaigns of those years. During the war with Spain it took part in the battles at and near San Juan Hill, Cuba, and the capture of Santiago.

In Philippine Service.

This was followed by Philippine service in which the regiment was engaged with "insurrectos" on the islands on a number of occasions before its first return to the states in 1903. Since then the Second has again served in the Philippines and was just in time to take part in several engagements with hostile Moros.

That Uncle Sam is a peace lover we all fondly believe, yet the old man has been obliged to fight much oftener than is usually realized. Professional peace advocates may be interested in noting the history of this regiment of our modest sized army, which in its life of little more than one hundred years has engaged in no less than twelve wars and campaigns of great importance to the nation.

LADY GOLFERS TO PLAY.

Tuesday, July 8, has been fixed as the day for ladies to qualify for a ladies' team of the Kekionga golf club. The best eight scores made will be chosen to constitute the team.

Lisle Tucker goes to Clear lake tomorrow for an outing of two weeks. Ottmar Helny will leave tomorrow for a stay at Cedar Point.

GRAND JURY GIVEN ORDERS TO LOOK INTO BEER

"Near" Varieties of Hops and Booze in Tennessee to be Probed.

Nashville, Tenn., July 2.—Judge J. M. Hart, of the criminal court, today gave to the grand jury a special charge on the prohibition laws as contained in the Holladay bill. Judge Hart, in making an intimation, told the jurors it was for them to determine whether or not the liquid sold was sufficiently alcoholic to intoxicate a normal man in good health. He told the jurors that it was their duty to make inquiry under this law, and that they might send for witnesses.

Judge Hart said he had been informed, but not officially, that the substance called "beerette" or "near beer," contained one-half of 1 per cent. of alcohol, and that if the investigation showed such drink was intoxicating to find a presentment; if not their duty ended.

On the locker proposition Judge Hart instructed that a man had a right to store liquor at home, in an office, a locker or elsewhere so long as he did not sell it.

He discharged the men arrested yesterday for selling "near beer" because of faulty warrants.

CORNELL WINS FOUR- OARED RACE IN REGETTA.

[Continued from Page One.]

nell's crew, trained to perfection in the opinion of their veteran coach, Charles E. Courtney, were picked to wrest the coveted cup from Syracuse, but a battle royal was expected all the way from Krum's Elbow down to the finish line, a mile below the Poughkeepsie bridge. It was the opinion of many that Cornell would win all three events. Columbia loomed up promisingly, according to the viewpoint of others, while Pennsylvania and Wisconsin were left to shift for the final honors of the race. The positions of the crews, allotted some time ago, gave Pennsylvania the inside of the course next to the west bank of the Hudson, with Wisconsin second, Cornell third, Syracuse fourth and Columbia fifth, or nearest the Poughkeepsie side of the river.

Looked for Lively Struggle.

The freshman eight-oared race was expected to furnish another lively struggle, with Cornell and Syracuse the predicted leaders down the two-mile stretch. Cornell has the inside position, with Syracuse next, Columbia third, Wisconsin fourth and Pennsylvania fifth.

K. T. Klock, bowman in the Syracuse four, became ill with tonsillitis yesterday and was not expected to row. It was expected that L. M. Bush would be substituted. This change, it was believed, would strengthen Cornell's chances in the race.

Cornell has the position nearest the west shore, Columbia second, Syracuse third and Pennsylvania fourth. United States revenue cutters policed the course.

LANDS NEAR LOUISVILLE.

Louisville, Ky., July 2.—The balloon Hoosier, which ascended last night from Dayton, O., landed two miles south of Louisville at 11 o'clock today.

The Hoosier passed directly over the business district of the city, coming low enough to make the name on the huge bag discernible to the naked eye. Several sacks of sand were emptied as the residence section to the south was reached.

During the passage of the balloon across the city several persons who had not seen the big bag bag telephoned the newspaper offices notifying them of a "very peculiar shower of sand and gravel falling out here and covering everything."

NO OUTBREAK AT JAIL.

Boyer Released and Made No Threats When Turned Out.

The turnkey at the jail received a note yesterday morning from a prisoner to the effect that a delivery would be attempted this morning when William Boyer, a negro prisoner, was released, but nothing occurred and Sheriff Reichelderfer does not believe one was contemplated. One of the prisoners had picked up a piece of iron and made a slingshot of it, but this was found and taken away. The system of releasing prisoners at the jail precludes an attack upon the officers as the man to be let out is separated from the other prisoners before he gets to the outer door of the cell house.

WILL MAKE TRIAL FLIGHTS.

Calais, July 2.—Herbert Latham, the French monoplane flyer, will undertake a series of trial flights before attempting to cross the English channel. These will delay his long flight for at least a fortnight. Henri Farman denies he contemplated flying across the channel and Count De Lambert, the third aviator reported on the point of making the same effort, gives no evidence of such intention.

NERVOUS DYSPEPSIA

A Disease of the Nerves Not of the Stomach—Correct Home Treatment.

Nervous dyspepsia, unlike other forms of indigestion, is a disease of the nerves and it must be treated by strengthening the nerves and the use of a good tonic, such as Dr. Williams' Pink Pills, together with a generous and nourishing diet, is the correct home treatment.

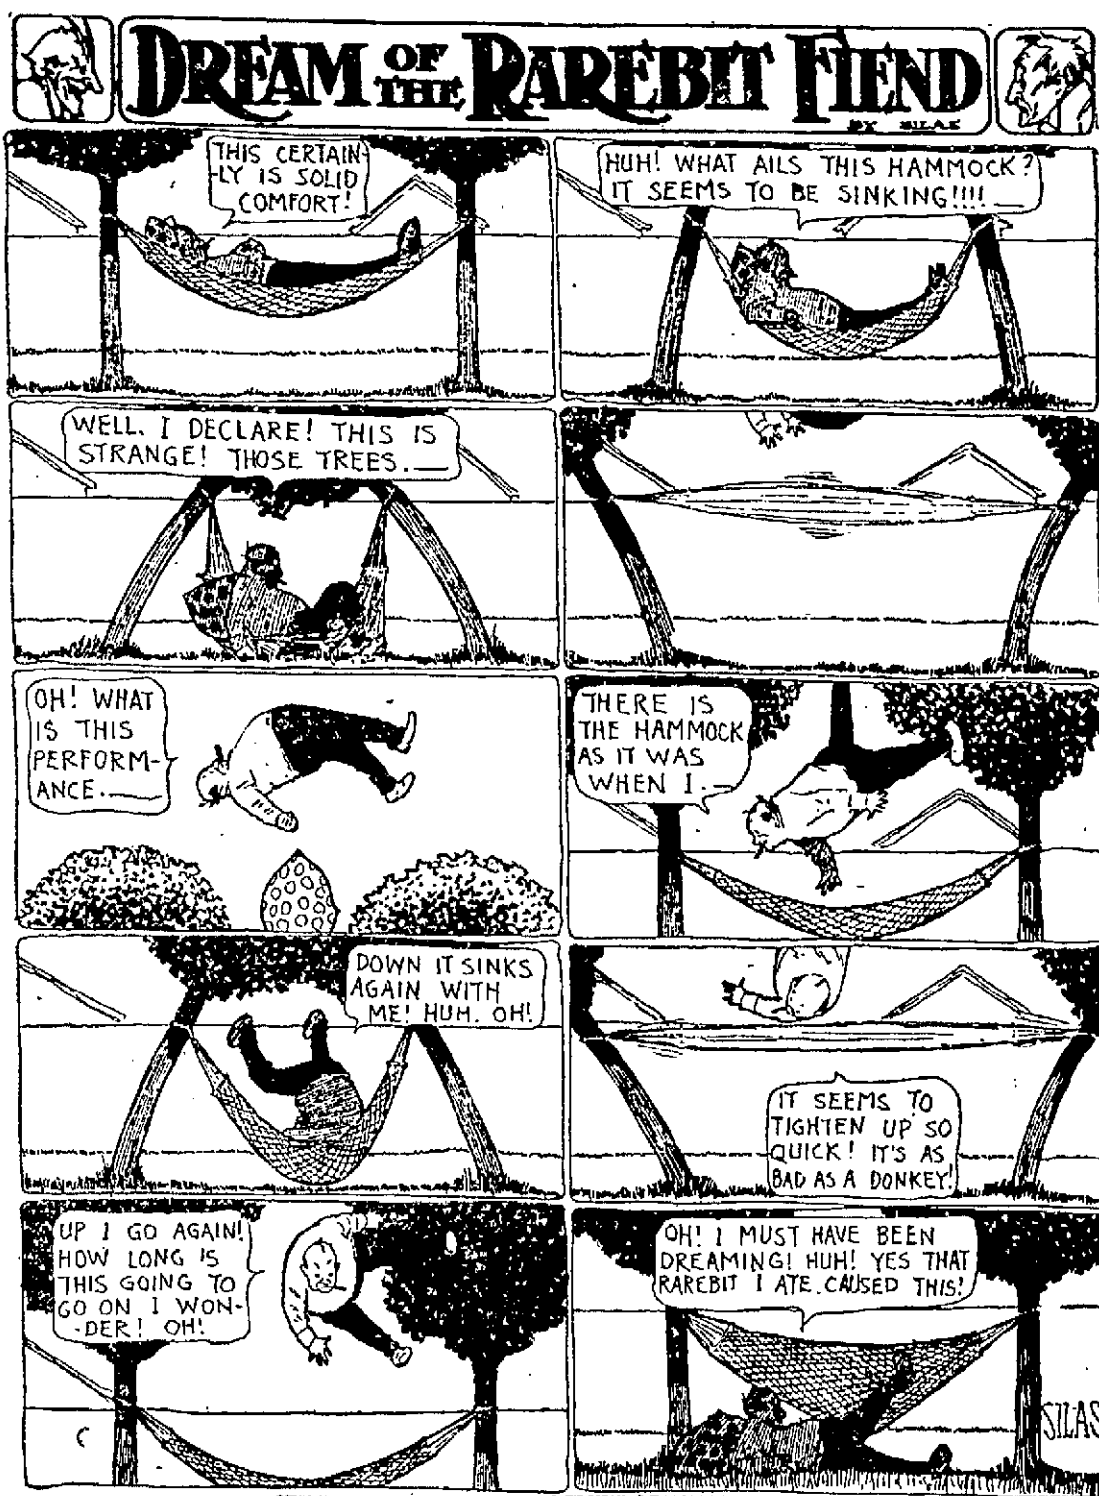

After suffering with nervous indigestion for over two years Mrs. George P. Martin, of No. 16 Admiral street, New Haven, Conn., tried Dr. Williams' Pink Pills. She tells of the great benefit she received as follows:

"Following a severe run-down condition I began to suffer with nervous indigestion. Food distressed me so much that it was with difficulty I could drink water and I had to live on milk almost entirely. I lost in weight and strength. I was so nervous that I could not bear to have any one visit me. I could not sleep nights or if I did I would wake up suddenly with a startled feeling. Whenever I ate much my stomach would blow and there would be gas out of it. Often times I had to vomit to get relief. On going up stairs or in over-working I was certain to have palpitation of the heart. I had dull, sick headaches which lasted for two or three days. During these attacks I was unable to do my housework. I felt sick all over and wanted to be undisturbed."

"The doctor's medicine failed to help me after a trial of over three months. I read about Dr. Williams' Pink Pills in a newspaper and began using them. I noticed a difference after I had taken only a few boxes and was cured when I had given the pills a good trial. My cure has been permanent but I keep Dr. Williams' Pink Pills on hand to use as a tonic."

Dr. Williams' Pink Pills are useful in cases of acid stomach and in the treatment of over-sensitive stomachs in which the slightest irritation causes painful gnawing or burning sensations. This condition is common among growing girls.

Sufferers from dyspepsia in any form, who have found their condition unrelieved or actually growing worse while using ordinary remedies, would do well to try Dr. Williams' Pink Pills. They are sold by all druggists or direct by mail, postpaid, on receipt of price, 60c. per box; six boxes, \$2.50. A diet book will be sent free, on application to the Dr. Williams Medicine Company, Schenectady, N. Y.

Street Commissioner O'Brien has dispensed with team labor. Seven self-binding reapers have been destroyed in Noble county in the past few days.

Frank Welker and Annie V. Thomas, Abner Tinsley and Nettie Dugan have been licensed to wed.

The Allen County Medical society held a meeting yesterday. The brethren now dwell together in peace.

After three weeks active preparation the republican "Plumed Knights" paraded last night, forty-six strong.

The electric light towers blazed last night. The private street lights are weak, and complaints are being made.

Sheriff Will Schiefer is distributing cards announcing himself in German as "der beebler" candidate for sheriff.

The electric light company has contracted with the Fort Wayne Gas company to light the city until Aug. 1 for \$500. The electric light will then be in shape.

Henry Colerick, delegate to the democratic national convention, goes to Chicago Saturday. Already he has had 998 applications for admission tickets to the convention hall. He has but four to give.

The lawyers complain bitterly of dull times. Yesterday a young attorney was given \$10 by a client, and instantly half a dozen other lawyers were on his back struggling for a glance at the greenback.

This morning Recorder W. W. Rockhill, of the Fort Wayne commandery, sent to the commanderies at Kendallville, Warsaw, Logansport, Plymouth and Lima invitations to attend the cornerstone laying at the M. E. college here on July 4.

The Fort Wayne, Peoria and Galesburg railroad is quite likely to be built.

this summer and fall. The Fort Wayne, Columbus and Northwestern will be an eastern connection of the Galesburg road, and another branch will run into Michigan from several Indiana counties.

There are now fifty-five Indian girls and boys in the White Institute in Wabash county. The boys are very industrious and are rapidly acquiring a knowledge of farm work, while the girls are making commendable advancement in everything pertaining to housework, sewing, etc.

BOWEL COMPLAINT IN CHILDREN.

When six months old the little daughter of E. N. Dewey, a well known merchant of Agnewville, Va., had an attack of cholera infantum. Chamberlain's Colic, Cholera and Diarrhoea Remedy was given and effected a complete cure. This remedy has proven very successful in cases of bowel complaint in children and when given according to the plain printed directions can be relied upon with perfect confidence. When reduced with water and sweetened it is pleasant to take, which is of great importance when a medicine must be given to young children. For sale by all druggists.

TAFT WILL AID IN WAR AGAINST COCAINE

Ravages of Drug Habit are Proved to President and He Will Help.

New York, July 2.—That President Taft has gone carefully into the evidence of the pressing need for a tariff check on foreign cocaine, which is secretly supplied to victims of the deadly habit throughout this country, was announced in this city today. On this humanitarian phase of the tariff question the president has strongly urged the leaders in congress to consider the recommendations of the American Health league for a prohibitive duty and internal revenue restrictions, it is declared by leaders in the cocaine crusade in which this organization is active.

Through his marked interest in the problems of the south and the welfare of the negro race, it is reported that President Taft was first interested in the cause of curbing the cocaine evil. The inroads which this drug habit has made into the centers of negro population, where the results of its sale for illicit use have proved as disastrous as those of alcohol, have been called to the attention of the chief executive of the nation. The sad havoc that the secret circulation of cocaine has wrought among every class in towns all over the country has also been laid before the president.

In the white house, as well as before members of congress, the facts of the rapid spread of the illicit use of cocaine have been fully presented by representatives of this movement in which the American Health league is interested. While state laws act to confine the domestic product of the drug largely to the legitimate and merciful uses of the surgeon, doctor and dentist, it is shown some dealers, who pander to the cravings of the drug fiends, are easily able to maintain secret sources of supply by importation from abroad. Though cocaine enough to conduct a whole operation costs less than a cent, hundreds of dollars worth

of the drug is known to be sold each year by many of its illicit purveyors.

SWEPT BY FIERCE STORM.

Life and Property Lost in Gulf Coast Hurricane.

Brownsville, Tex., July 2.—The storm which swept the coast Wednesday did considerable damage to property and several lives are reported lost. At Point Isabel several fishing boats were capsized and two Mexican fishermen, who were on one of them, are missing and believed to have been drowned. The round house of the Rio Grande railway at Isabel was blown down and the depot badly wrecked. Many houses were destroyed.

It rained in torrents all day and it was impossible to see a distance of thirty feet. The people were panic-stricken and twenty or thirty families took refuge in the large hotel of the railroad company during the day. A number of St. Louis and Chicago people are among the summer visitors.

The visitors at Tarpon Beach were obliged to leave the clubhouse on account of the rising water and sought safety at the quarantine station. No lives were lost and all were brought to Point Isabel. Many fishing boats were capsized and one gasoline launch is missing.

The life-saving station on Brazos Island was nearly undermined by the water.

Hartingen was wrecked. The country west of the railroad is one vast sheet of water. Many farms are inundated.

HALTS GREEK'S DEPORTATION.

Evansville Attorney Defeats Proposed Action of Immigration Authorities.

Evansville, Ind., July 2.—Following federal Immigration Bureau authorities from Indianapolis to Chicago and there obtaining a writ of habeas corpus from United States Judge Landis, former Representative John H. Foster of this city, prevented at the last moment the deportation of Sava Mangiaris, a Greek, 19 years old, under the contract labor prohibition.

Mangiaris was arrested in April at Muncie, Ind. The case is the first one in which the Immigration Bureau's procedure under the old contract labor act of 1903 has been successfully challenged, and affects a large number of warrants now out and soon to be served.

HELP FOR THOSE WHO HAVE STOMACH TROUBLE.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—SAMUEL BOYER, Plow, Iowa. NO DAMAGES; ALL FAMILY DEAD.

Missouri Pacific Kills Father, Mother and Sons and Pays Nothing.

Jefferson City, Mo., July 2.—By the billing of the entire family, the Missouri Pacific railway escaped liability for the payment of damages for the death of Philip Runci and wife and their nine sons.

Suit was brought for \$15,000 in the circuit court of Johnson county by George G. Ginkerson, administrator of the estate.

According to the Missouri supreme court, the company is left free from damages because the entire family was wiped out by the fatal wreck, no person who had the right to maintain a suit to final judgment against the company surviving.

SUGAR TRUST INDICTED.

A federal grand jury in New York has returned indictments against the corporation known as the sugar trust and several of its officials for conspiracy in restraint of trade. The government has long been preparing for this attack on one of the most ruthless and impudent business combines the country has ever known and is believed to be able to make out its case.

A more malodorous chapter than the great sugar trust has written will not be found in the entire commercial history of the country. Its methods would put to shame the transactions of a cheap junk huckster. It has drawn the line at no means as too immoral for its conscience, has been prosecuted and convicted as a swindler and was forced to compromise a suit in which the most palpable frauds were alleged. It now must face trial under the Sherman anti-trust law for conspiracy.

The outcome of the trust prosecutions by the government has not in any case been satisfactory. Somehow it appears that the law is ineffectual when attempt is made to squelch a trust for good. The Standard Oil cases are an instance. Though long on the judicial boards the suits against the great tobacco trust, in inquiry worthy twin of the sugar trust, are still pending. It will be occasion for great public rejoicing if the government is finally successful in its crusade against the two gigantic feudal plunderers.

SANITY BEGINS AT HOME.

The more or less general movement in the country to preserve the eyes and hands and other anatomical identities of young America from injury or destruction by careless use of means for noise-making on the glorious day has educational value. But it will not make the Fourth either safe or sane until its now abstract purposes are crystallized into law—definite, enforceable, penalty-inflicting law. Meanwhile, let sanity begin at home, where it should. Parental authority can do much to restrain the annual ebullience

of Young America so far as it must wreak itself in perilous ways. Gunpowder, dynamite caps and cannon crackers together with the small but exceedingly deadly toy pistol cannot become at once a wholly extinguished feature of the Fourth, but much good would follow parental prohibition of these things. The fact is that an American, young or old, likes to make a noise, both with his mouth and de-tonating things, and the older American in consequence is frequently quite as eager to add to the general din as his patriotic offspring. So long as use of the dangerous explosive things is so encouraged at home there is little use of expecting much from the well-meant but ineffectual campaign for a saner Fourth. Until the law is made drastic and its enforcement made rigorous the celebration of Independence day will continue to be about the same old thing with such new features as modern ingenuity in the development of explosives may add from time to time. When the man at the head of the household decides it unsafe and insane for Johnny or Bobby or Willie to take upon himself great risk of self-destruction there will be something doing—or rather undoing.

An earthquake of tremendous violence has just shaken Messina, Reggio and other places in Sicily and Calabria. No damage of consequence is reported, previous ruin merely being made more complete. Nothing perhaps could better emphasize the utter destruction by the convulsions of last December than that Thursday's shock found nothing to destroy. Reports that the people of the region are crazed with terror may well be believed. The cataclysmic catastrophe of the year's end bred fears that will never subside in those who dwell in the disturbed area and survived the disaster and any repetition of seismic phenomena will inevitably upset their reason.

TRIES TO FREE SON; MAY DIE. Mother, Whose Boy is in Reformatory, Prostrated by Heat.

Greensburg, Ind., July 2.—On account of the eagerness of Mrs. Mary J. Manning, of Harding avenue, Chicago, to secure the release of her son, Sanford Manning, from the Indiana reformatory at Jeffersonville, she is now in a critical condition here from heat prostration. She came to Greensburg on the advice of Governor Thomas R. Marshall, to whom she appealed for aid in getting her boy a parole. She had gone to the county jail to enlist the sympathy of some of the county officials, and it was while talking to them on Tuesday that she fell in a faint. She has been given every possible attention, but her condition is regarded as alarming. Manning is not yet 18 years old, and was wounded before his capture.

ELECTRIC TALKS No. 149 Phenomenal Finance and the Hot Air Doctors The present administration corps of doctors for the ills of the body politic last week declared themselves. It is the continuance of the present treatment, even if it kills the patient. Will the family of the patient—those who pay the doctor's bills and always have paid them—tolerate such treatment or will they discharge the doctors? We shall soon see. Last week at a meeting of the City Council, Controller Schmidt, aspirant for the mayoralty, in a communication asked that \$15,000 be appropriated for extensions of commercial lighting. An ordinance covering this request was referred to the finance committee. Is there any doubt about what that means? It is a plain official defiance of Public Opinion which knows from the figures actually presented that appropriations for commercial lighting are only another name for tying up city funds in a wastefully hazardous competition. THAT SORT OF THING FINDS NO EXCUSE OR APOLOGY FROM BUSINESS MEN OF ABILITY AND INTEGRITY. As one of the most prominent and influential members of the party which the city administration represents said in our hearing, "such action only shows that its perpetrators are not up for re-election." If that is the judgment of the weightier minds in the party what should the plain ordinary citizen conclude? Is not public being openly and brazenly flouted? The request for \$15,000 more to drop in commercial lighting was accompanied by a certain "sugar-coating" in the way of a request for \$2,000 to be spent in street lighting. Now \$2,000 as every reader of these Talks knows would pay for extensions and lamp installation for a bare dozen or two lamps, when we need six hundred. Our arc lamps cost \$50 each. Installation of one, with wiring complete, costs, according to circumstances, from \$50 to \$100 more. But does anyone think that street lighting that goes WHERE IT IS NEEDED is what is intended by the present administration? One only needs to look and see what street lighting is being pushed at present! Walk down lower Calhoun and Columbia streets underneath the new arches where there is light ENOUGH AND TO SPARE. Then walk from the street car which you take to your home nearer the City limits and FEEL YOUR WAY IN THE DARK. Is the City devoting itself to the UNSUPPLIED MANY or to the already supplied FAVORED FEW? Whose taxes are making this inequality and injustice possible? When \$2,000 more is asked for erecting arches and supplying light to the same, is it pretended that the City makes money thereby? If so, why is the City assuring the business men who subscribe the \$500 per year per block for electric lighting by arches that they are receiving this light for \$180 a year LESS THAN COST? Is the City then engaging even in street lighting on private account at a PRE-MEDITATED loss? In short, has the City under the present administration ANY policy which rests on an actual business basis? Or is it merely "PLUNGING" on the bare chance that the people may be deceived by its ANTICS as it has been by its PROMISES? Read our next Talk. Ft. Wayne & Wabash Valley Traction Co.

LECTURE COURSE PLANNED.

Second Annual Treat at Third Presbyterian Church This Season.

Under the auspices of the men of the congregation of the Third Presbyterian church, arrangements are under way for a lecture course of five numbers. The course will likely open during the month of November and, like last season, continue until after the New Year. The plan is to have two lectures and a program of entertainment by an impersonator.

So successful was the first project of this kind that the local church feels encouraged in having another course this year. It is expected that with the co-operation of all the men of the Third church, the course will be unusually successful.

OUTING AT CLEAR LAKE.

Episcopal Church Choir Boys to Leave Wednesday.

The choir boys of Trinity Episcopal church, chaperoned by Rev. Edward W. Averill, the rector, and Rev. W. W. Daup, will leave next Wednesday for Clear Lake, where they will go into camp for a week. C. H. Weatherhogg has offered the use of his lot as a camping ground and the offer has been accepted. Many of the members of Trinity parish are spending the summer at Clear Lake and the boys anticipate a delightful time.

A Blaze of Conviction.

Sweeping Over the Whole Country.

The more people know of the great discovery that has made so many remarkable cures throughout the state during the past few months, the more convinced are they of the great merit of Root Juice. Thousands of people have been cured by it all over the country. Many that use it a short while are so loud in their praise that their neighbors crowd into the drug store to get some of the health-promoting Juice. Usually one bottle will convince, and it is but seldom that five or six bottles does not make a complete cure of indigestion, constipation, nervous weakness, rheumatism and other troubles arising from a diseased condition of the stomach, liver, kidneys and bowels. It seems to cure by removing the cause. It heals and tones the organs that make and filter blood. People are going in crowds many miles to see the man that discovered the wonderful curative agent and get some of it. Bradley Bros., the old Wagner stand, at transfer corner, has the agency at this point. Root Juice is sold for \$1 a bottle or three for \$2.50.

A SILVER LINING TO THE CLOUDS OF DEPRESSION

Government Statistician in Review of Commerce is an Optimist.

Washington, July 2.—The silver lining of the clouds of business depression in the darkened industrial sky is about all the government statistician saw during the month of May. The statistician review of the internal commerce of the United States during that month, as shown by a bulletin of the department of commerce and labor, has an optimistic tone.

While the volume of live stock and grain movements was below that of May for the preceding two years, and there appeared also a slight check in the upward trend of the coal and timber traffic, the transportation, manufacturing and building activities are reported as improved.

The coke output and shipments showed a continuous improvement in answer to the larger demand of the iron furnaces. Increased takings of cotton and wool were interpreted as indicating a greater activity in the textile industry, while larger shipments of boots and shoes from the chief distributing centers served the statisticians as an index of more regular industrial employment.

The building activity in the larger cities of the country was reported as unusually heavy. Traffic operations of railroads, judging by the total number of freight cars handled and the number of idle cars reported, were not up to the high record of 1907, though comparisons with May, 1908, showed a considerable improvement for all sections of the country.

STORY IS NOT CONFIRMED.

Nothing Known in Paris of Wainwright's Return.

Paris, July 2.—Reports from the United States that Ellis Wainwright, of St. Louis, who has been sojourning here for some time, would return to that city and face trial on charges in connection with alleged official corruption, cannot be confirmed, owing to Mr. Wainwright's absence on a summer traveling tour. He has a residence on the Avenue des Etoiles and an office on the Rue de la Paix. For the last month he has been absent and it is said that at the present he is at one of the Austrian resorts, probably Marienbad.

F. M. SMITH & COMPANY

How Money Is Wasted On 5-Cent Cans

When you get the right brand of Evaporated Milk, you are wasting one-third if you buy in 5-cent cans. Please read these facts and see.

Let us say at the start that every grocer has 5-cent cans of Van Camp's.

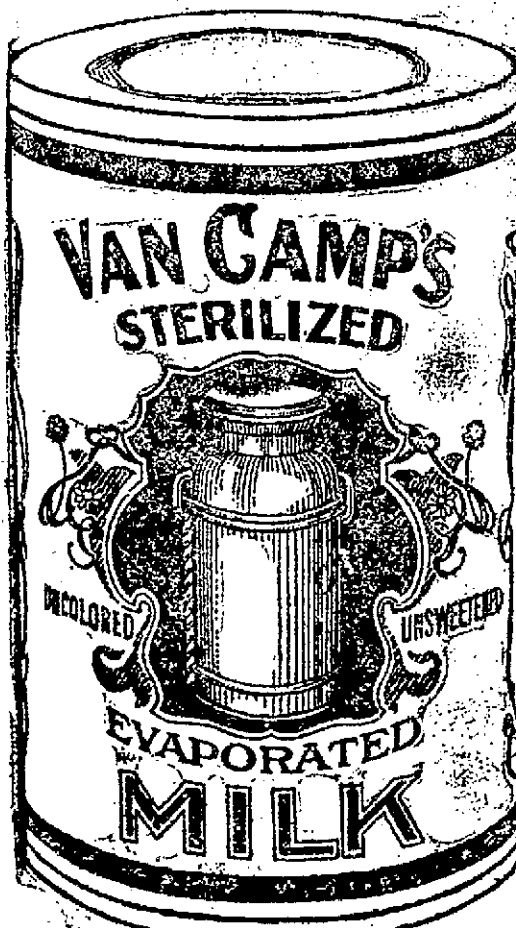

They are just as large as the 5-cent cans of vastly inferior brands.

And we sell more than of the 10-cent cans, because of mistaken ideas.

So, we don't give these facts to attack competition. They are simply to show how to get the most for your money.

Six Ounces for 5 Cents

All makers give six ounces of Evaporated Milk for five cents.

It matters not how much the milk is reduced by evaporation. It may be reduced as much as Van Camp's, or only partly as much.

All charge five cents for six ounces.

So you get just as much of Van Camp's for five cents as you get of the poorest brands on the market.

But you get but six ounces of any.

Sixteen Ounces, 10 Cents

In the 10-cent can of Van Camp's—the tall size—you get sixteen ounces of evaporated milk.

That means an even pint.

It means exactly one-third more for the money than you get in the 5-cent cans.

In Van Camp's you get 8 per cent of butter fat, about 28 percent total solids.

That is because we use rich, Holstein milk. And because we evaporate by far the larger part of the water.

If you put back the water which we take out, you get about three pints of very rich milk out of a 10-cent can.

And that rich milk will cost you, if you buy Van Camp's by the case, just about six cents per quart.

That's what you ought to pay.

But the same milk in 5-cent cans—even when bought by the case—costs you over eight cents per quart.

The Mistake Lies Here

You who buy 5-cent cans don't get the full good of Van Camp's.

You use it for coffee and cereals, perhaps. But you probably use raw milk in your cooking.

That is a great mistake.

Van Camp's is fully twice better for cooking than the average run of raw milk.

Raw milk always separates, for the butter fat rises and the solids fall. So raw milk used in cooking is rarely whole milk.

In Van Camp's you get the whole milk—all of the butter fat and all of the solids belonging to the richest milk.

If you will try Van Camp's in only one milk dish you will never use any other. Note the flavor, the richness you get from it.

Van Camp's is fine on the table, of course. But it is also fine in the kitchen. It has twice the worth of raw milk.

Another Mistake

Then some people think that evaporated milk doesn't keep when the can is opened.

It will keep if you get Van Camp's. In usual weather it keeps 24 hours and it keeps 48 hours or longer on ice.

Keep it in the can until you use it up, for the can won't hurt it any.

In the long run, what is best for you is also best for us. That's why we publish these facts.

Get the most for your money.

Buy the pint cans—the 10-cent cans. Then ask your grocer to quote you his discount by the case.

You save money by buying 48 cans at a time. And you save all of the trouble of buying from hand to mouth.

PARCHING THROATS ARE SLAKED IN MEMPHIS

"Near" Prefixed to Favorite Denomination of Booze Gets It.

Memphis, Tenn., July 2.—Chancellor Minor granted a temporary injunction until July 6 to the majority stockholders of the Tennessee brewery here, restraining the managers from manufacturing "near beer" or any other product except real beer. This, however, had no effect on the enforcement of the statutory state-wide prohibition law, which went into effect yesterday, and even if the injunction is made permanent and should be sustained by the supreme court, it will not affect the prohibitory law.

Although the mayor, the chief of police, the judge of the criminal court, and the attorney general all publicly stated that they would enforce the law that went into effect yesterday, drinks were sold at most of the saloons as on Wednesday.

No arrests were made, and the saloon men did not seem to fear any. One of the thirsty would walk into a bar room and ask the keeper: "Have you any 'near' whiskey?" to which the response was: "Yes, how'll you have it?"

"Near Gin Riskeya" Sold.

If it was a gin rickey, the "near" had to be placed before the gin, and so on all through the catalogue of drinks dispensed at the various emporiums. Real beer was put on in "near" bottles, and those who came to taste and complain remained to drink and rejoice.

The statute in force forbids the sale within four miles of any school house of intoxicating liquors or beverages containing any percentage of alcohol.

The supreme court in several decisions has upheld that law. The injunction strikes at the bill prohibiting the manufacture of beer, liquor or any beverage containing any percentage of alcohol, and that law does not go into effect for six months yet.

It is stated by the attorneys who brought the proceedings before Judge Minor that they will carry their case to the United States supreme court, and it is understood their purpose is to get a decision, if possible, that will stay the prohibition wave now sweeping over the land.

It is probable that suit will be filed here to test the four mile law, one of the leading hotel men being selected as a victim.

EARLY CLOSING IN NEBRASKA.

Omaha, Neb., July 2.—The saloons of this city hereafter will put up shutters and turn out lights when the curfew rings. At 7 a. m. today they be-

gan under the new law, opening at that hour and closing at 8 p. m. This not only applies to the saloons in Omaha, but those everywhere in the state. The men who look upon wine made the most of their opportunity last night. There were lively scenes in the streets and barrooms around midnight. Songs were sung and the health of every one drunk in all kinds of liquor. The Liquor Dealers' association met and voted unanimously to obey the law.

SOCIETY

It is easy to imagine the fun and merriment of a party of young girls at a Fourth of July luncheon and a game of tennis afterwards. So there's little need of describing Miss May Jewell Smith's entertainment at the Golf club this afternoon in honor of Miss Alice Knight's guest, Miss Sallie Oakley, of Oyster Bay. In the center of the table at luncheon was a decoration of flags and place cards were attached to the place cards. Other guests were Miss Lee Knight, Miss Jessie Orr, Miss Bertha, and Miss Helen Peters. Miss Georgiana Bond, Miss Florence Lang, Miss Ruth Beers, Miss Clara Thelme, Miss Virginia White.

The reception committee at the Golf club tomorrow afternoon will be Mrs. Will M. Griffin, Mrs. Fred McCulloch and Mrs. Herbert Bond. There will be a committee on entertainment on Monday afternoon, in celebration of the holiday, Miss Hoffman, Miss Emily Hoffman, Mrs. Lee Nide and Miss May Jewell Smith will dispense refreshments on that day.

Miss Ella Anderson, of South Calhoun street, gave a beautifully appointed luncheon today as a compliment to her guest, Mrs. Frank Hughes, of Marion, Ohio, who arrived yesterday. There were covers for sixteen and the luncheon was served on small tables, which were decorated with vases of carnations, with blossoms of the same flower tied to the place cards.

Miss Kline, of Crawfordsville, who is the guest of Mrs. Jesse A. Greene, was the guest for whom Mrs. Lee Nide entertained guests for two tables at bridge this afternoon.

A buffet luncheon in the midst of garden flowers and served in the open air was the way Mrs. Frank I. Brown entertained a party of ladies at 1 o'clock today for Miss Nellie Van Volkenburg, of Chicago; Mrs. Walter Barrett, Mrs. Allen Hamilton, Miss Calhoun, of Atlanta, Ga., and Mrs. E. G. Evans, of Toledo, Ohio. Other guests were Mrs. S. B. Bond, Mrs. E. C. Rode, Mrs. Jack Kuhns, Mrs. A. S. Bond, Mrs. H. C. Rockhill, Mrs. Nellie Freeman Melick, Mrs. Herbert Bond, Mrs. Frank Bond, Miss Knight, Miss Ruride, Miss Fee, Miss Maude Sperry, Miss Louise Bond and Peris and Lois Bond.

In honor of her guest, Miss Sally Oakley, of Oyster Bay, L. I., Miss Alice Knight gave a pretty dinner party at her home last evening and afterwards entertaining her guests at Robison park. The young people who had a part in Miss Knight's hospitality were Misses Florence Lang, Virginia White, Bertha Peters, Georgiana Bond and Messrs. Paul Peters, James Porter, Roger Fisher, Maurice Lohman, Bartlett Shryock and Will McKay.

Miss Jane Leach, of Laselle street, gave a very pretty party at her home last evening in honor of her guest, Miss Elizabeth Lentz, of Tampa, Fla. Red carnations and Marguerites were used in decorating the rooms. The amusement was picture contests and each guest wore a picture that represented the name of a magazine for one game and filled blanks in sentences with names of publications for another. There were present Mr. and Mrs. O. E. Richard, Mr. and Mrs. Fred Todd, Mr. and Mrs. Fred Fowler, Mr. and Mrs. Charles Sheets, Mr. and Mrs. Ellison Meier, Misses Daisy Wickliffe, Anna Roehm, Della Hopper, Maude Wells, Mabel Moore, Anna Ralston, Cecile Link and Messrs. A. A. Lehman, T. E. Moffatt, Alonzo and Cleveland Nickodemus, Will Ralston, Frank Gaffney, Rufus Connolly, Edward Leach and E. C. Greist.

Sash and Bow Decoration

LINED CROCK. PHOTO BY JOEL FLEISHER

Large ribbon sashes and bows worn with the simplest frocks make dressy costumes that any mother would be proud to see her daughter clothed in. These decorative accessories in plain, plaid or striped silk ribbon look pretty on the average small girl, whether she be stout or slender. The width of the sash shown in the illustration is not extreme, though it is very wide.

with rose paper festoons and garden roses and a pleasant time was spent. A dance and supper were given at Robison park on Wednesday evening in celebration of the birthday anniversary of Mrs. J. R. Heinrich. Otto Adams, of Terre Haute, was an honor as well as visiting guest. There were present Mr. and Mrs. John C. Capron, Mr. and Mrs. Ed Collins, Mr. and Mrs. William McLeod, Mr. and Mrs. J. R. Heinrich, Mr. and Mrs. William Spaulding, Mr. and Mrs. Kirby, Mrs. Joe Gaskins, Miss Carrie Lund, Miss Mabel Homsher, Miss Charlotte Stapleford, Messrs. Otto Adams, Robert Meyers and Harry Adams.

Miss Emma Schwahn pleasantly entertained the Rainbow club at progressive pedro yesterday afternoon at her home in East Wayne street. Prizes were won by Mrs. A. Parks, Mrs. J. Yenni and Miss Agnes Farrant.

Miss Luora Kanaga entertained the S. B. M. Cooking club and an equal number of young men, last evening in honor of Lieut. and Mrs. James Williams, who are here on a visit with relatives. The decorations of the house and porch were in national colors.

Among the coming parties to be given at lake resorts will be Miss Virginia Olds' house party at Walloon lake, when she will have as guests, Misses Dorothy White, Irma Poole, Mildred Saylor, Helen Kelly and Elizabeth Porter.

Mrs. John H. Bosch has returned from a visit in Terre Haute with her mother and sisters, Mrs. Caroline Schwedes and Misses Ottilia and Adella Schwedes, who are to sail on July 17 for a year's absence in Europe. The young ladies are to make a special study of German.

Mr. and Mrs. W. V. Douglass and D. Burns Douglass are planning to go east early this month, to remain some weeks. They will visit relatives in Boston, Mass., Bethlehem and Littleton, N. H., and will spend part of the time at one of the White Mountain resorts.

Perry, 2111 Lafayette street. Mrs. Mills and the Messrs. Perry are brothers and sister, but they had not met for thirty years.

Mr. and Mrs. Max Irmsher and daughter, Sophie, came home yesterday from a three months' trip to Germany, where they visited Mr. Irmsher's mother. On their way from New York the travelers stopped at Niagara Falls. Last evening a company of relatives called to welcome Mr. and Mrs. Irmsher home. The rooms had been tastefully decorated

with rose paper festoons and garden roses and a pleasant time was spent. A dance and supper were given at Robison park on Wednesday evening in celebration of the birthday anniversary of Mrs. J. R. Heinrich. Otto Adams, of Terre Haute, was an honor as well as visiting guest. There were present Mr. and Mrs. John C. Capron, Mr. and Mrs. Ed Collins, Mr. and Mrs. William McLeod, Mr. and Mrs. J. R. The dancing act of the English Madcaps produces a highly favorable impression as soon as the act begins, and before it closes the audience gives enthusiastic applause. While this act is one of the highest priced in vaudeville it is not the only good thing on the bill. Keough and Francis amuse a downtown with their playlet, "The Ward Heeler," and George W. Day has a rapid fire monologue that is amusing. Pictures and singing by Doris Diamond and Helen Tanguay complete the bill.

ARMY OF ACTORS IS DRILLED FOR BIG FIRE SPECTACLE

Local Participants in "The Battle in the Clouds"
Show Up Well.

A very satisfactory rehearsal of the 250 local participants in Palm's "Battle in the Clouds" occurred last night at Robison park, and the Palm management states that all will be in complete readiness for the grand opening tomorrow night. The airships and aeroplanes used in the thrilling battle scene are here and a "trout" yesterday showed them in first class condition.

For the accommodation of those desiring boxes at the "Battle in the Clouds" the Robison park management is putting in a limited number of private boxes, which will be located directly in front of the grand stand, each box to accommodate six or more persons. The sale of grand stand seats and box seats is now on at the D. & N. pharmacy, and reservations for either may be made for any performance without any advance in price over those charged at the amphitheater. Patrons accompanied by ladies and children will appreciate this accommodation, as it enables them to avoid the rush at the ticket office at the park. While great crowds are expected, the large new amphitheater accommodates several thousand people, and care will be taken that no more tickets are sold than can be comfortably seated. If there is an overflow late comers will have to be content with standing room. Popular prices will prevail, general admission, including seat, being 50 cents. Seats in grand stand and reserved section, including admission, 75 cents. Box seats, \$1 each. Children under twelve years of age, 25 cents.

Among the many meritorious specialties which take part in the "Battle in the Clouds" spectacle, one of the best known is the intrepid aerial act presented by Jean and Marie Weltzman, who have appeared in nearly all parts of the civilized world and whose act on a slender wire nearly 100 feet above the stage never fails to create a sensation. Their funny elephant on high wire is most laughable and the volcanic finish, where they are entirely enveloped in fire, is a most thrilling stunt.

Wear the invisible suspenders. Then you can take off your coat if it's too warm. Patterson-Fletcher Co. sell them for 50c.

Electric light bills are now due. Office open Saturday evenings, July 3 and 10 until 9 p. m. Please call your contract numbers.

HOLDS LICENSE TO BE GOOD UNTIL NOVEMBER

Grant County Saloon-keepers Get a New Lease of Business.

Marion, Ind., July 2.—Judge H. J. Paulus, of the Grant circuit court, yesterday decided that the word "passage" as written in the county local option law refers to the time the law became effective and that liquor licenses granted after Sept. 26, the date on which the legislature physically passed the law and the governor affixed his signature, and before Nov. 20, the date on which the acts were proclaimed, are valid and good for one year from the time they were granted.

The decision affects nine saloons in Grant county. Judge Paulus is recognized as one of the ablest circuit judges in Indiana and his ruling on this question has been awaited with general interest throughout the state. The opinion contains more than 5,000 words.

The prosecutor filed an exception to the ruling, but it is understood that no appeal will be taken, since the question already has been carried from Wabash county to the supreme court.

Saloon Men Made Test Case.

Charles Hartman, Gas City; T. H. Young, Jonesboro; Christopher Kohlenberg, Julius Stoebe, Mert Wallett, Frank Vrosler, A. Whitacre, John McCaffery and Andy Howard, of Marion, who obtained licenses between Sept. 26 and Nov. 20, did not close their saloons at the end of the ninety-day period and they permitted themselves to be arrested in order that a test case might be filed. Condo & Brown, of Marion, were employed to defend them and the state was represented by Prosecutor W. E. Williams and his deputy, O. R. Clawson.

Judge Paulus quotes fifteen or twenty authorities to sustain his opinion and in concluding says:

"We are constrained by force of the authority cited to hold that the phrases 'after the passage of this act' and 'prior to the passage of this act,' as used in Sec. 2 of the local option statute, must be held to mean and relate to the time of the taking effect of said acts as a law. In other words, by force of the repeated uniform holdings of the court they have acquired a definite legal meaning when used in legislation, and this meaning must be followed, no matter what the subject matter of the legislation may be."

SELLS WET GOODS AT AUCTION.

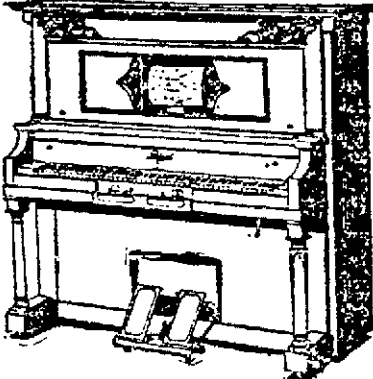

Crawfordsville Dealer Disposes of Stock by Novel Method.

Crawfordsville, Ind., July 2.—A unique method of disposing of a stock of liquor was the one employed by S. S. Burrows, whose saloon closed Wednesday night, because of the county local option election held here in March. Burrows sold his stock at auction, all goods being sold to the highest bidder. W. D. Stewart's saloon was closed Wednesday night because of the county voting day. Crawfordsville now has but ten saloons left.

ELEVEN-MONTH-OLD GLOBE TROTTER

MRS. T.A. LAWRENCE AND "ADMIRAL JAMES AVERILL LAWRENCE SALUTING THE AMERICAN FLAG."

New York, July 2.—James Averill Lawrence, eleven months old, is hailed as the champion globe trotter. In nine months he has traveled 19,000 miles. He is a direct descendant of the famous Captain Lawrence and has shown a craving for travel and nautical affairs since he began to toddle. His latest trip has just been completed, when he returned with his parents to the United States from a visit to Europe.

WHICH?

SMITH was working in his yard. Pushing his lawn mower hard. Brown, who happened then to pass. Asked, "Well, out to cut your grass?" "No," said Smith; "I'm harding whales in the midst of arctic gales."

Brown walked on and shook his head, Musing over what Smith said.

Smith was in a barber shop. Having his hair trimmed on top. Jones came in with jaunty air. Asked, "They're clipping off your hair?"

"No," said Smith; "we're making bricks; Also weaving candle wick."

Jones walked very noddily out. With his mind quite full of doubt.

Smith was riding on a car. Fretting at the jolt and jar. Black got on and asked beside. "Out to take a little ride?" "No," growled Smith; "I'm climbing trees."

To enjoy the evening breeze."

Black got off and tapped his brow, Thinking Smith was dotty now.

Smith was lunching in a place. Where the busy waiters race. White came in from off the street. Asked, "Do you come here to eat?" "No," said Smith; "I'm here to sing Joyous lyrics of the spring."

White walked solemnly away. And was serious all day.

Brown and Jones and Black and White Met together that same night. And took steps to put poor Smith Where he need not suffer with The delusions that he had. All four of his friends were sad.

But consider it, I pray— Who was foolish, he or they? —Wilbur D. Nesbit in Chicago Post.

Good Friends.

"Yvonne, have you been each day to inquire after poor Mme. Trinquet since her dreadful accident?" "Yes, madame."

"That's good. Keep on going."

How She Knew. "I do think," exclaimed Mrs. Tolker indignantly, "that Mrs. Gadabout is the most aggravatingly inquisitive woman, if I must say so, I ever knew. Why, I never pass her on the street but what she invariably turns her head and stares back at me to see what I've got on and how it sits from behind."

"How—er—that is, I was wondering, my dear, how you found out that the mean thing looked back. Some one tell you?" inquired Mr. Tolker innocently.

And Mrs. Tolker straightway turned the stream of her indignation, seething hot, from Mrs. Gadabout to her "insinuating wretch of a husband," as she fondly termed him, and after the first pyrotechnic outburst refused to speak to the fortunate man for the rest of the evening.—New York Press.

Rooms For Improvement.

"I see," said DeForun, who was making a prolonged call, "that an Ohio genius has invented a telephone attachment that will enable one to see a person miles away."

"That may be all right as far as it goes," rejoined Miss Wearum, "but it doesn't go quite far enough. An attachment that would keep some people miles away would be more practical."—Chicago News.

Great Expectations.

"Who are these new people that are moving into the house next door?" "I don't know, but I am sure we shall get along splendidly with them. They have unloaded a wheelbarrow and a lawn mower."

Familiar Scenery.

"Your ocean trip was pretty nice, I s'pose?"

"Oh, yes."

"Saw icebergs and such things, eh?"

"Yes, but I missed the billboards, I can tell you."—Washington Herald.

On Vacation.

It certainly surprises me to see the office get along. I go away two weeks to stay, yet matters don't go very wrong.

It certainly surprises me to see the office lose a clerk. Of my estate and wondrous weight and yet keep up the current work.

You'd think the boss to fill the gap would hire two husky workers, say— At least employ a man and boy to do my work while I'm away.

He doesn't do a blooming thing, a foolish man, as you'll agree. Yet things was on when I am gone. It certainly surprises me. —Philadelphia Ledger.

What He Remembered.

"An' ye fell from a window, Jerry? How far was it ye fell?" "T'n stories."

"Well, well! That was a great fall. And what did you think on your way down?"

"Begorry, I didn't think of nothin' until I passed th' fift' story. Thin I remembered I left me pipe on th' window sill."—Minneapolis Journal.

The Jokesmith.

Ned—Honest, are these jokes original with you?

Ted—On my honor. I wrote 'em all. Ned—But why?

Ted—To support my family. Ned—But if your family is as old as those jokes it must be fully able to support itself.—Cleveland Leader.

Disposing of It Cheaply.

Client—This copy of my will is all right, but I want the original written on a slate.

Lawyer—Beg pardon, but what is your object?

Client—So my heirs won't have any difficulty in breaking it.—Chicago News.

Better Still.

Mrs. Smythe—Is your husband liberal?

Mrs. Browne—Yes, indeed. He allows me all the pin money I want.

Mrs. Smythe—Huh! My husband allows me all the money I want for other things besides pins.—Pittsburg Post.

Worth Going to Jail For.

Judge (at the close of a trial)—Prisoner, you may have the last word.

Prisoner (turning to his wife in the audience)—Do you hear that, old lady? —Meggendorfer Blatter.

SATURDAY NIGHT TALKS

"Blazing the Trail." By Rev. F. E. Davison, Rutland, Vt. Interna-
tional Bible Lesson for July, 4, '09—(Acts 16: 1-15).

In two of the greatest epics ever written, the Odyssey of Homer and Aeneid of Virgil, the hero starts from Troy. Here was the tomb of the warrior Achilles, before which Alexander the Great knelt in adoration, and started for the conquest of the East. The ambition of this soldier was to weld all nations into one vast empire with common laws and language emanating from a central throne.

New Worlds to Conquer.

Four centuries later another warrior stood on the border of Asia, under the shadow of the tomb of Achilles listening to the Macedonian cry, looking for new worlds to conquer. He too was a hero of battles, he bore in his hand an invincible sword, he was moved by a quenchless ambition that could not be satisfied while there was another foot of land that had not been trodden by the heralds of the cross. Paul, the apostle, had come to do by spiritual power what Alexander the Great had failed to accomplish with all his cohorts. Weld by the sword of the Spirit all nations into one universal kingdom with common laws and language, issuing from a central throne.

On the Firing Line.

The pioneer in untraveled regions, the pathfinder in the forests and in the mountains, does not explore for himself alone. While he looks forward in anticipation he is ever conscious of the host pressing on behind him, and he seeks for them the safest places and the shortest cuts, and as he goes he slashes with axe the trunks of great trees, that those who follow after may never be out of sight of signals of the proper trail. The career of the Apostle Paul was much like that. He was the pioneer of the churches' advancement. He was on the picket line of the oncoming host. He kept far in advance of the main body of the army of conquest. He chafed and fretted in confinement. He was the embodiment of Charles Kingsley's book "Westward the Star of Empire Takes Its Way." When he gives a summary of a quarter of a century of service, when his work was not yet finished he makes out this catalogue: "Of the Jews five times received 140 stripes save one—five

times 39 equals 195 stripes.—Thrice I suffered shipwreck, a night and a day I have been in the deep. In journeying often, in perils of waters, in perils of robbers, in perils by mine own countrymen, in perils by the heathen, in perils in the city, in perils in the wilderness, in perils in the sea, in perils among false brethren; in weariness and painfulness, in watchings often, in hunger and thirst, in fastings often, in cold and nakedness." And like a true soldier instead of saying these things to murmur and complain the old hero says: "Seeing that many glory after the flesh, I will glory also."

Honorable Scars.

Oliver Cromwell had a vivid scar on his face received in battle. Once a portrait painter attempted to pose him in such a way as that the scar would be concealed. But the grim old warrior would not submit to it. "Paint me as I am," he said, "I will have scars and all." The scars of honorable conflict are badges of honor, certificates of loyalty of which any man should be proud, and this old Christian hero said, "If you think you have reason to glory in what you have accomplished I have a few credentials to show his scars received while blazing the trail for generations yet unborn."

No genuine pathfinder ever was known to complain of the roughness of the way. The men who blaze the trail expect to endure hardships as good soldiers. Dr. Grenfell, the hero of Labrador, lay down on the ice and slept while drifting on an ice floe out to sea. John Brown had no malcontents for his enemies though riddled with bullets. Commander Peary, again and again, has flung himself against the icy barriers of the North. In his attempts to reach the baffling pole, David Livingston, breathing out his life alone in the heart of the Dark Continent, uttered not a syllable of regret over a misadventure. Dr. Judson, the light-bearer for India, counted not his life dear unto himself, so that he could get the Scriptures of truth into the hands of the teeming millions of that empire. And Paul, looking across the Aegean sea to the Grecian shore, and feeling the divine call stirring within him, to carry the cross to those regions where the Roman eagle was the highest symbol of power, hesitated not an instant to cut himself off from his base of supplies, and plant the standard of the cross on European soil. Europe and America have been redeemed from barbarism, because Paul, the apostle, blazed the trail for the conquering armies of the Cross.

STRANGER CLEANS UP \$1,000.

Uses Bold Methods in Cincinnati Hotel Backed by Big Gun.

Cincinnati, O., July 2.—An affable stranger, is about \$1,000 ahead and Charles Kelsner and David Smith of Brookville, Ind., are about \$1,000 behind as a result of a chance meeting in the Indiana village Wednesday evening, and a little "strong arm" work in Room 657 of the Grand hotel about noon yesterday. The two men hustled into police headquarters and related their woes.

They said they met an affable stranger in Brookville Wednesday night and told him incidentally that they were coming to Cincinnati Thursday. He said he was from Cincinnati and would call on them if he knew where they would be. They would be at the Grand hotel, they said.

Yesterday about noon the Brookvilleans reported to the police that the stranger called upon them in their room. Whereupon, they said, he produced a formidable looking revolver, stood them against the wall and from their pockets took \$540 and from Smith \$250, which is a large sum of money in Brookville, Ind. Then the stranger, affably intimating them with his pocket fowling piece, withdrew.

Portsmouth, N.H., July 2.—The town marshal and his assistants, with a posse of volunteers, were called out to the scene of the robbery.

Death came peacefully to the aged woman as she was seated in her chair, within a few moments after she had remarked upon the beauty of a bouquet of flowers which the daughter had brought for her mother.

Is South Bend a liberal city in its government? Rather. At the meeting of the city council one of the council-

men reported that a policeman had entered the saloon of John Bredemus on last Saturday evening and as Bredemus wished to attend some function during the evening, the officer removed his cap and coat with his star, and donning the apron stepped back of the bar and for the next two hours, while still on duty supposedly, tended bar for the proprietor.

PLAYERS DON'T USE HEADS TO WIN GAMES

Baseball Too Scientific to be Played Without Thinking.

There are at least five men on the Fort Wayne team faster on their feet than "Danger" Grant, of the South Bend team and if they knew how to utilize their speed and would inject a little headwork into their play now and then and cross the opposition they could win more ball games. Grant made a dash for the plate yesterday when he knew Hammond would not be checking for it, as South Bend was on to the good, and conventional base all would have prompted him to stick in third. He failed in one attempt because Midge Craven had him guessed or a squeeze and fouled the ball off in an attempt to bunt and then he turned right around and pulled the trick after he had tipped it off.

The only man ever known to make an attempt of that kind here was Big Bill Kelly last season, and he got away with it. Time after time this season the fastest men on the team have died on third base waiting for a hit or a misplay, all because the opposition knew they would have the bag and never think of making a spectacular dash for the plate, which is as good a chance as waiting it out with a lot of weak hitters coming up. Anyhow, it keeps the other fellows guessing and imbues the fans with the idea that there are dash, brains and aggressiveness in the club.

Speaking of quick thinking and acting upon it in a flash, Frank McDermott made as grand a play in the seventh inning as was ever pulled off on any base ball diamond and it counted. Hammond hit Lindsay and fanned Coffey and gave Craven a base on balls. Kelly whiffed and Kroy dropped one over Frankie Donahue's head that filled the bases. Core hit a bouncer down third base line and the "Philly Kid" came in fast and speared it with his bare hand.

Conventional base ball would have suggested the play at first, which is the best nine times out of ten, but the little fellow figured in a flash that he would lose out there, remembered that Clark did not have to tag the runner at the plate and he whipped the ball to the catcher, retiring the side.

After Grant had tipped that he was coming for the plate Hammond took a big windup and gave the Broncho leader a chance to slip in. Henry tossed the ball out into the diamond and started for the bench. The bluff was all right, but he knew very well he had not tagged the runner and while starting for the bench was all right, he would have held the ball if he had; thought a little faster and this would have prevented Tiesman from scoring.

A FEW PASSING REMARKS.

Robertson played a good first base and Elston looked better at bat now than he is back in his own pasture. Channell is hitting the ball hard and his work in the field is improving. Three assists in the game shows that he is using his head and arm to good advantage.

One run was lost because Frankie Donahue is not up to his top speed. He was nailed at the plate in the sixth on Elston's hit to right because his legs are bad and he can not run as fast as he can ordinarily.

Curly Blount was sick and could not play. Fremmer took his place at the top of the batting list.

Clark is weak with a left handed pitcher and Henry was sent in with a man on second in the seventh, but he failed to hit.

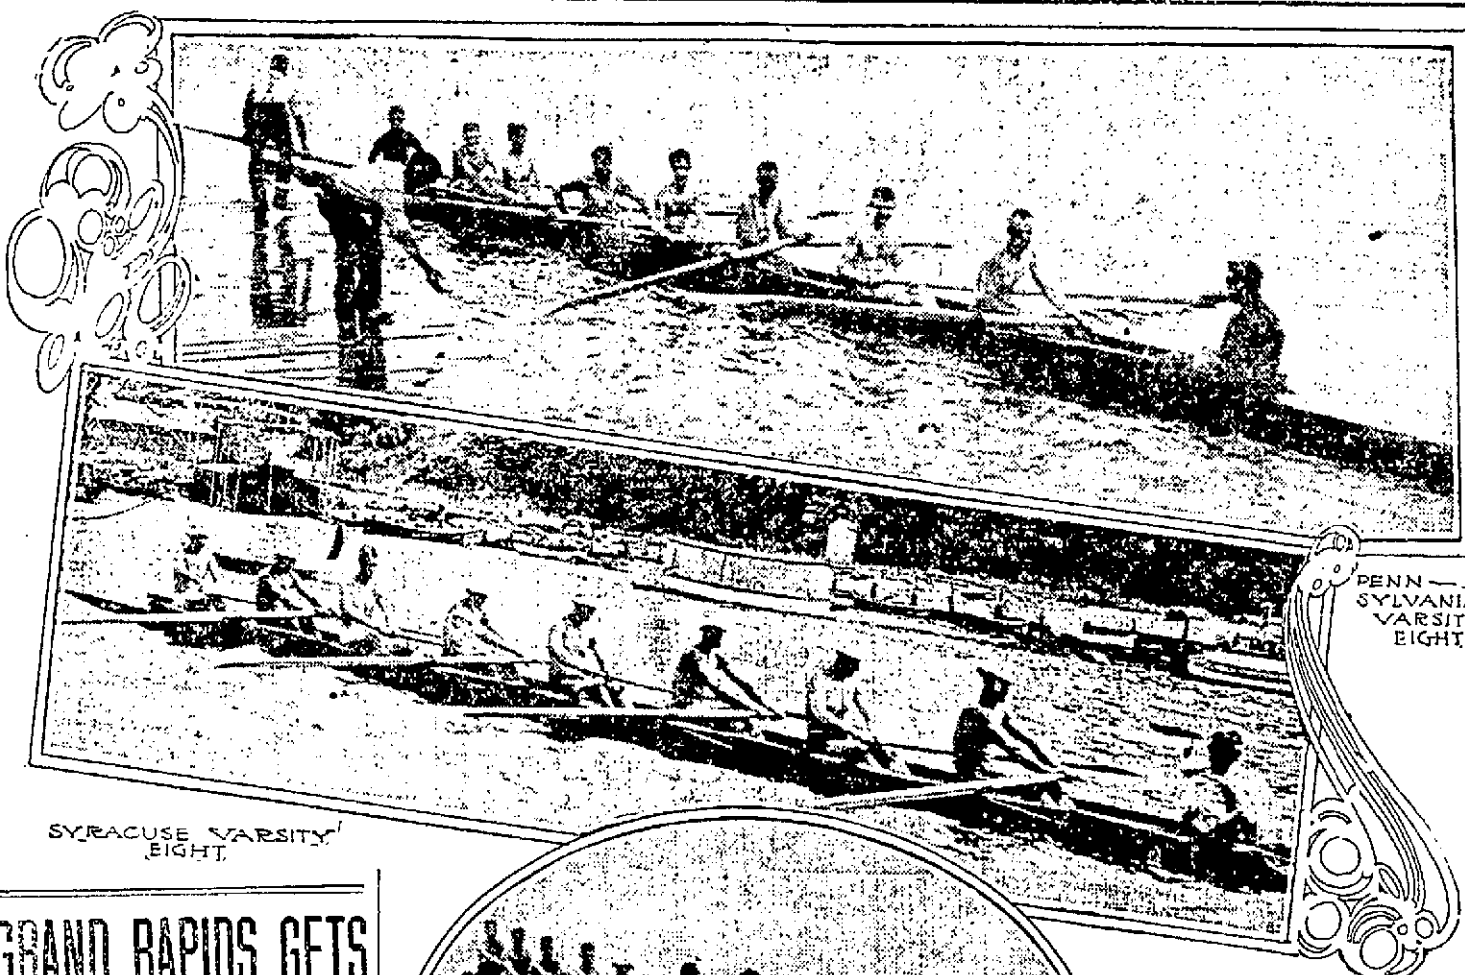

Hammond opened the sixth with a double and was advanced on a sacrifice, but got caught between bases on Donahue's bouncer and was run down. There was a lot of kicking on Frank Gardner's work, but it's a hard job to umpire a game between two losing teams.

FRED UHL CONSENTS TO TRY OUT AT FIRST

He Will Report Tomorrow Morning to Manager Hendricks.

Fred Uhl, a semi-professional player who has been covering first for the Indianapolis Reserves and the Adkins team, also of Indianapolis, has wired Manager Jack Hendricks that he will report tomorrow morning to try out for a regular berth here and he will be given an opportunity to show whether or not he is up to Central league caliber. The management has grown tired of the efforts to buy a good man for the bag and will try an experiment with the hope of getting a man who can cover the bag and hit well enough to entitle him to the job. Uhl has been playing ball for some time and Manager Mart Cleary of the Shamrocks has heard some very favorable reports of his work and considers him worth trying out. At any rate the experiment will not hurt anything and it has come down to a point where the minor leagues must develop ball players in order to get them as they are hard to buy. Uhl has never played professional ball. Somebody from Lafayette thinks the Northern Indiana team has a left hander that is good enough for the Fort Wayne team and an offer has been made to send him here for the club for some time and Elston will go to right again and Elston will go to first. Walter Miller was slated to pitch the second game against South Bend.

HARVARD VICTOR IN VARSITY OVER YALE CREW

Crimson Eight Won Third of Day's Events and Swept Board.

New London, Conn., July 2.—In a grand exhibition of rowing by a crew remarkable for its physical power and endurance, Harvard defeated Yale in their annual varsity boat race on the Thames last evening. The Crimson led from start to finish, and won by six boat lengths. Harvard's time was 21:50, Yale's 22:10.

By this victory Harvard won its second consecutive boat race from Yale in twenty-eight years. Not since 1882 and 1883 has Harvard won two consecutive races from Yale. Since 1885 Harvard has won five varsity races from Yale, including yesterday's. In 1891, 1899, 1906, and 1908 Yale has been coaching at Cambridge Yale and Harvard have met three times and the Crimson has won two races.

With this triumph of the varsity eight Harvard closed one of the greatest rowing days in its history. The Crimson by winning the two races in the morning, the varsity four-oar and the freshmen eight, accomplished the complete defeat of Yale.

The greatest crowd that ever assembled on the Thames poured into New London to see the big race. Harvard's growing confidence in its boating system brought double the number of spectators than the usual four-oar and the freshmen eight, and the determination to win back its glory brought a record-breaking crowd. The railroads could not furnish enough cars to accommodate all the people who fought and struggled for seats on the observation stands. It was estimated that at least 40,000 people saw the race from trains, from every other kind of vehicle, and from a flotilla to the finest floating craft that graces American waters.

Although Harvard won by a handsome margin and administered a crushing defeat to Yale, the race was nevertheless a contest right up to the last half mile. All the way up the river the two crews rowed with almost equal precision, and a slip of any kind in either shell would have turned the victory into defeat within a few seconds. But there was no break in the Harvard boat. Rowing all the way two strokes and sometimes three strokes the minute more than Yale the Crimson eight crept away from the Blue, little by little.

For two and a half miles Yale kept within a scant boat's length of its rival. Then Harvard put on power and increased its lead first to three lengths, then to four lengths, and finally to six lengths. Yale quailed with its old-time determination, but it was in vain.

The official record of the race follows: Harvard—Half mile, 2:26; one mile, 5:10; two miles, 10:45; three miles, 16:10; four miles, 21:50.

Yale—Half mile, 2:27; one mile, 5:12; two miles, 10:48; three miles, 16:20; four miles, 22:10.

The stroking of the crew by miles follows:

Harvard—Start, 39; one mile, 34; two miles, 31; three miles, 28; finish, 26.

Yale—Start, 38; one mile, 33; two miles, 32; three miles, 31; finish, 30.

The explanation of Yale's defeat is

THE DETAILS AND THE STATISTICS.

The first counter of the opening game of the South Bend series was tabbed by Fort Wayne in the third when Craven threw low on Hammond's grounder and the pudgy pitcher trod on to second when the ball bounded over Core's head. Tony Fremmer scored him with a new single to left that took a bad hop for Kroy. The Broncho looked up in the first half of the fourth after Lindsay had booted Kroy's grounder. Core bunted and Grant picked off a two-base hit that sent the run over.

With Lindsay shelved in the fifth "Turkey" Coffey shot one to right for a brace of bags and Craven moved him up with a bunt that the midget beat out. The little fellow stole second and when Kelly hit a short fly to middle the Turk thought Channell would get it and he waited a second too long to start for the plate and was cut down by a throw from center. Craven took third on the play and when Lindsay threw wild to first after a fumble of Kroy's grounder he scored. Kelly went to second on the throw to the plate that killed the Turk and scored on Core's hit. Kroy tried to race around from first on a long single and got past third in safety but lost out at the rubber on a relay from Channell to Lindsay to Clark.

Grant was hit by one of Hammond's wild hurls in the eighth and pulled off a hit and run with Tiesman that landed him on third and then he made a bold dash for the plate and got over. Henry thought he had tagged him and tossed the ball to the middle of the diamond and Tiesman came all the way in from second before it was captured and gotten back to play.

Lindsay's third fumble of the game put Kelly on in the ninth, a sacrifice by Kroy advanced him, he took third

on Core's out and home on Well's drive to left. Fort Wayne's run in the seventh was made with two down on a double by Robertson after McDermott had hit for a base.

Lester Channell opened the ninth with a rattling triple along the first base line and Lindsay scored him with a hit. McDermott followed with a single and Grant unblanketed another pitcher in anticipation of a blow up in the stretch but Lindsay settled down after that and retired the side without any more damage.

PROBE RESTING IN REFORMATORY MATTER

Inquiry Into Alleged Misdoings Waits on Next Week's Meeting.

Indianapolis, Ind., July 2.—The investigation at Jeffersonville is at a standstill until after the meeting of the reformatory board of trustees to be held at the institution on Monday, when the charges made against M. M. Barnard and the institution will be considered. It was understood yesterday that a written reply would be made on the advice of the board of trustees by Mr. Whitaker. So far as any personal investigation was concerned Governor Marshall stated yesterday that he was taking no further steps. "The matter from this time on lies entirely with Mr. Whitaker," said the governor. A part of the complaint against

Whittaker's administration was that he made punishments of prisoners that were not reported to the board of state charities, in order to make a better record for the institution. Originally it is understood this was the only complaint lodged against the administration which might be construed as improper conduct of the office. The matter of discipline rested entirely with Barnard, who, it was stated, often resorted to forcible means for compelling instant obedience.

Sharp Knew Situation. The appointment of Dr. Harry Sharp, who was acquainted with this phase of the institution's administration, was in some measure to get a correction of this situation. Sharp's appointment, however, is said to have worried the administration, which led speedily to the uncovering of the more serious charges which have been made against Barnard. The presence of Amos W. Butler, secretary of the Board of State Charities, was to make an investigation of this phase of the situation, the trip being made by Butler upon his own initiative.

The reply it is contemplated will include a statement upon this point as well as of the board's position upon the alleged abuses of the parole system upon which the governor and Whitaker are known to have been at odds. The trade school policy of the institution, the "reformatory" idea, is one of the idols of the superintendent's heart. It is his belief that every man turned from the institution should go forth

capable of sustaining himself at some trade.

Under the indeterminate sentence law it is optional with the board of trustees when the minimum of the sentence has been served to say whether the prisoner shall remain longer. The decision is invariably influenced by the statement from his foreman as to his efficiency at the trade he has been learning. If he is efficient, he is allowed to go on parole; if not, he must remain longer, the period being dependent upon his progress.

Detention is Protested. This is the situation from Whitaker's point of view, but to Governor Marshall it has another point of view—a point of view impressed by personal visits from parents or wives of prisoners, who can not understand why they should tarry beyond the minimum of the term, two years for instance, when the sentence is two to fourteen years. Another source of protest is the labor unions. From these organizations come open charges that the prisoners are being detained beyond the minimum period because they have grown valuable to the manufacturers who employ prison labor on contract.

The attitude of the prison labor contractor is that he has spent, at the end of two years, a deal of time and patience upon the instruction of the prisoner, and that his services have only just begun to be profitable. In order to retain the prisoner for further ex-

ploration he is reported a "lame" student.

Most of the prisoners are instructed when they are sentenced that if they are careful to make a good prison record they will be released at the end of two years. This is often the encouragement handed to the man by the judge imposing the sentence. Governor Marshall holds that the court and the jury who hear the recital of the man's crime are the only persons competent to say how long he shall serve. A man serving his first term, who behaves properly, should be released at the end of the minimum period, says the governor. Second offenders, he holds, deserve no such treatment.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY THE BEST AND SUREST.

"It affords me pleasure to state that I consider the preparation known as Chamberlain's Colic, Cholera and Diarrhoea Remedy the best and surest of good results of any I have ever used in my family," says F. E. Herington, of Mount Aerial, Ky. This is the universal verdict of all who use this remedy. Its cures are so prompt and effectual that people take pleasure in recommending it. For sale by all druggists.

CARRY A HEALTH HINT.

Street Car Transfers Made to Do Some Missionary Work.

The street railway transfers now used on the Fort Wayne city lines are made to do some missionary work in the campaign against the white plague. On the reverse side of the transfers is now printed the following:

"Consumption is caught mainly through the spit of consumptives. If you have consumption, don't give it to others by spitting; even if you have not, set a good example by refraining from the habit; always disinfecting, often dangerous. Friends of consumption: Dampness, dirt, darkness, drink. Enemies of consumption: Sun, air, good food, cleanliness. Department of Health, Fort Wayne, Ind."

HIGHEST PENSIONER ON THE PENNSY LIST

John P. Green, Who Retired Yesterday, Gets \$13,000.

Capt. John P. Green, until recently first vice president of the Pennsylvania, went upon the company's pension roll yesterday. As a pensioner he will be in a class all by himself. He will draw a higher pension than any man in the United States. It is estimated that he will get \$13,000 annually. It is a rule of the Pennsylvania that a man must retire at the age of 70 and the rule applies to the highest as well as the lowest in the service. Captain Green's leave-taking of his associates at the Broad street station in Philadelphia was marked by many expressions of appreciation of his long term of service.

Captain Green was known as the spokesman for the company. When statements were to be made at annual meetings he was invariably the one upon whom the task devolved. He had an extraordinary grasp of the financial affairs of the company, and was regarded as probably the most convincing speaker before a meeting of stockholders of any railroad man in the country.

CONTRACTS AWARDED.

Old Fort Knitting Company Ready to Build.

Bids were opened and contract awarded last night for the erection of the factory of the Old Fort Knitting Mills company in the eastern part of the city. The contract was awarded to the Fort Wayne General Construction company for \$18,985, that firm's bid being the lowest. There were seven bidders and the amounts ranged from \$18,985 to \$22,924, the latter being the bid of F. H. Pitkin. The contract stipulates that the building is to be completed by September 1, but it is said that owing to the scarcity of certain kinds of material to be used in its construction the time limit will probably be extended five or six weeks. The plans, which were drawn by Architect Ralph Snyder, are for a building three stories high and with a basement under the entire structure. The company expects to have it completed, equipped and ready for operation by January 1. One hundred and twenty-five employees, chiefly girls, will comprise the working force in the start and it is said that many applications have already been made.

ASHPAN SHOP FOREMAN.

A. I. Rondot Takes Charge of New Department.

A. R. Rondot, a boilermaker, will have charge of the new ashpans shop of the Pennsylvania, established recently in the south and east side of the car machine shop building, east of Lafayette street. The new department has been in operation for a week, but beginning next Tuesday the force will be greatly increased and the work of equipping locomotives with ashpans that meet the requirements of the new federal law will be pushed along rapidly. There are nearly 1,000 locomotives on the Pennsylvania Northwest system to be thus equipped and all of the ashpans will be made in the shop in this city. The work must be accomplished by January 1 and Fore-

man Rondot and his twenty-five or thirty men will have about all the work they can handle the balance of the year. These ashpans are operated from the side of the locomotive.

COMING BACK TO FORT WAYNE.

Albert Schoenbein Takes Position at the 'Lights.'

This item of interest to many Fort Wayne people was published in the Peru Chronicle last evening: "Albert Schoenbein has resigned his position as stenographer in the office of Superintendent J. C. Sullivan, of the Wabash, effective today, and will accept service in a responsible position in the auditing department of the Fort Wayne Electric works. He is preparing to move his family to that city, which is his former home. Mr. Schoenbein has been on the Wabash for the past ten years or more, occupying positions from time to time in the trainmaster's office, the general foreman's office and in other departments, until going in the superintendent's office. He will be succeeded by Russell Jones, who has been a clerk in the office, and Mr. Jones' place will be taken by Martin Daly."

SAD NEWS FROM HOME.

J. C. Peoples Hears of Death of Father.

J. C. Peoples, of the Pennsylvania planing mills, received a telegram last night, calling him to Decatur, where his father was instantly killed yesterday afternoon. A. J. Peoples, the unfortunate man, was employed as section hand on the Erie and was struck by an engine while at work and had one side of his head crushed in. M. W. Kemp, foreman of the Pennsylvania lumber yards, and H. H. Matthews, employed in the Pennsylvania shops, are also relatives of the deceased and went to Decatur today to remain until after the funeral. A. J. Peoples had been a farmer for many years near Decatur, but retired and moved to the city, where he soon tired of a life of idleness and took a position as section man with the Erie. He was sixty-two years old.

MADE GOOD OUT WEST.

Frank E. Perrey Round House Foreman in Montana.

Frank E. Perrey, a Fort Wayne boy, who went west to "grow up with the country" several months ago, seems to be prospering. News concerning him is to the effect that he is located in Forsyth, Mont., and is round house foreman of one of the roads running into that place. Frank Perrey served an apprenticeship in the Wabash machine shops in this city, completing the term several months ago. He immediately went west, where he is getting along nicely, according to the news from that quarter. He is a son of the well known blacksmith.

CHARLEY CROSS HERE.

Charles W. Cross is circulating among his Fort Wayne friends and former associates today. He had been at Lima to attend the funeral of his father, and came up here this morning for a short visit before returning to his home in New York city. Mr. Cross holds a responsible position with the New York Central. He was previously master mechanic of the Elkhart shops of the company five or six years. His railway career began in Fort Wayne, where he served an apprenticeship and passed through the regular line of promotions until he became assistant to Motive Power Superintendent G. L. Potter. Thence he went to the Lake Shore.

CONDUCTOR LOSES A LEG.

Francis O. Green, for thirty-seven years a conductor on the Wabash road, the greater portion of his service being on the Decatur division, was in an accident yesterday in which he lost one of his legs. It is said he fell from his train, but the particulars of the accident could not be learned here.

FINGER BADLY CRUSHED.

Machinist W. J. Merritte, of the Wabash shops, had the misfortune to get his hand caught in such manner that one of the fingers was badly cut and bruised this morning. He will be unable to work for several days.

AN IMMIGRANT TRAIN.

A special train of ten or twelve coaches and a baggage car will pass through the city over the Nickel Plate about 12 o'clock tonight. It will carry upwards of 300 immigrants from Germany and Sweden, who will settle in Minnesota and the Dakotas.

RESORT TRAVEL HEAVY.

Northbound travel on the Grand Rapids and Indiana road and particularly on trains 19 and 5 and on train 17, the latter the Chicago-Mackinac train, is exceedingly heavy at present. Every berth is occupied most every night on these trains.

NEW MACHINERY ARRIVES.

The electric arc welding motor-generators that are to be added to the equipment of the Pennsylvania blacksmith shop arrived on the site of the plant this morning and will soon be installed and put in operation. These machines are of a new pattern.

CLOSED FOR INVENTORY.

Annual inventory is on at the Packard Piano and Organ works, on Fairfield avenue, and the shop is closed until Monday, July 12. In the meantime the machinery will be overhauled and other repairs and improvements will be made to the plant. The Gen-

eral Electric Lamp works will also close tonight for a ten days' suspension to allow the employees to enjoy a vacation season as best suits their individual tastes. This step is taken in order that no department will be crippled by absence of employees for that purpose when the works are in operation.

TOOL ROOM 'KEEPER' RESIGNS.

G. J. Tegeder, for some time tool keeper at the Pennsylvania erecting shops, resigned this morning and will take up another line of work. He had been employed in the shops for seven years.

INDUSTRIAL NOTES.

Ed Swenki took a position as a laborer at the Pennsylvania round house this morning.

C. W. Moore, William Fitzgerald, A. J. Lauer and C. E. Kidd, Pennsylvania shopmen, are sick and off duty.

C. J. Rear took a position this morning with Ed Eringer, foreman of the shop yard gang of the Wabash.

G. M. Bailey, an electrician at the Pennsylvania power house, is taking a lay off to do some work at his home.

Tomorrow H. Geiseking, carpenter in the Wabash shops, will accompany his wife to Norfolk, Neb., for a two weeks' visit. Brakeman N. E. Jones has a very sick baby and he has been laying off two or three days to help take care of the little patient.

F. Lorenz, who worked a year as an air brake inspector at the Pennsylvania round house, resigned last night to engage in other work.

J. A. Schneider, who had been absent awhile as the result of injuries resumed his duties at the Pennsylvania boiler shop this morning.

Frank J. Mannix, general foreman at the Garrett shops of the Baltimore and Ohio, is in the city for a visit with his relatives and friends.

Fenimore F. Elliott, Nickel Plate car inspector, will enter upon his vacation in a few days. He expects to enjoy it at the lakes, in company with his son.

Engineer and Mrs. J. W. Wells are at home, after a sojourn of two weeks at Lake James. Mr. Wells reported for work on the Nickel Plate yesterday.

Machinist W. H. Knoll of the Wabash, and his wife will go to Chicago tomorrow morning to spend the Fourth with their son, who resides in that city.

David Carr, Charles Majors and Louis Blakesley, of the Nickel Plate round house, are away on visits. Mr. Blakesley is with some relatives at Mortimer, Ohio.

Nickel Plate Engineers Wash Frase, Bert Baughman, George Quidor and Gus Long are taking a lay off, the two former to go to Lake James to fish a few days.

Passenger Conductor Frank Hart, of the Chicago-Detroit division, is dead after an illness of less than two weeks. He was quite well known in railway circles in this part of the country.

Chief Machine Shop Clerk Ed Keech, of the Wabash, and L. V. Blue, of

Mossman, Yarnella & Co., will go down the Maumee tomorrow on a three days' fishing expedition. They expect to camp near Defiance.

A. M. Schoyer, general superintendent of the Pennsylvania Northwest system, has been appointed a member of the committee on transportation of the American Railway association, to serve for three years.

A. H. Diem, a machinist's helper, has been assigned to the position of assistant clerk in the Pennsylvania erecting shop, succeeding Frank Nichter, who has entered an apprenticeship in the mechanical department of the shops.

Ernest Hilbish, a Nickel Plate passenger conductor, has gone to Los Angeles, Cal., to attend the funeral of his father, who died there a few days ago. The deceased was 71 years old and twenty years ago resided in Bellevue.

James Roach, one of the old employees at the Pennsylvania blacksmith shop, was overcome by the heat yesterday and had to quit work. His condition is not serious and he will be on duty again in a few days.

The ball game between the Electro-technics and the Rolling Mills team, scheduled for tomorrow afternoon, has been called off because of the absence from the city of some of the players. The game will come off later.

Passenger Conductors John and Peter Fording, who have run through this city on the Wabash, have gone to the Yukon Exposition and their respective jobs are temporarily in the hands of Conductors L. C. Gunn and C. R. McBride.

Jay S. Vervall, who retired from the office of yardmaster for the Nickel Plate yesterday, is making arrangements to take a little recreation before entering upon his new duties. As previously stated, Samuel Deahl is now the yardmaster, assuming that duty yesterday.

Fireman and Mrs. C. N. Crawford are the guests of relatives at Rader, Ind. Fireman and Mrs. W. N. Baker are in Chicago visiting friends and Fireman J. A. Williams is laying off to attend to some private affairs. The gentlemen are employed on the Nickel Plate.

An outing party at Blue lake over the Fourth will be composed of Mr. and Mrs. Charles Roberts, of 1149 Monroe street, and Mr. and Mrs. L. P. Shidler, of State street, who go to that resort tomorrow morning. Mr. Shidler is employed in the Pennsylvania shops.

A letter to Chief Clerk H. A. Phillips, of the Pennsylvania road foreman of engines room, from Valentine Kelbitz, an engineer who is taking treatment for rheumatism at the sanatorium in Hot Springs, Ark., says he is getting along first rate and will soon come home cured.

Miss Mary Denchy, who has been employed at the Fredericks restaurant for six years, will leave next Tuesday evening on Pennsylvania train No. 8 for New York, where she will embark Wednesday night for Ireland, her native country. Miss Denchy will be accompanied on the trip by her cousin, Miss Creigh, of Chicago. They will be abroad two months.

GAY DIVORCEE GETS ARRESTED WITH PARTY

Made Mashies at Park and Took Dear Boys to Her Home.

Under the name of Lillian Miles a woman who got a divorce in the superior court Monday from a man to whom she was married only eight months, was arrested at her former home at Warsaw and Buchanan streets early this morning with a girl of seventeen and two young fellows who gave assumed names. One of them is now under a suspended police court sentence and both were wise enough to say nothing. Fines were imposed upon the woman and fines and jail sentences upon the men and they were suspended because all are young. The divorced woman is only twenty and neither of the men is twenty-one.

They struck up a flirtation at the park Thursday night and came in on the last car and after they got home the young men were too fatigued to continue their journey and they remained at the house. Patrolman Lauer gave some damaging testimony against them and the woman admitted it was true and all got a good lecture. The Other Cases.

Joseph Thomas, a plain drunk, arrested by Deputy Sheriff Schoenfeld, who was looking for somebody that had stolen a watch, was given one hour in which to leave the city. George Cartwright was fined \$1 and costs for drunkenness. He had a pawn ticket for a watch on him when he was arrested Monday and he was held while the police were investigating.

Got Valuable Watch. F. E. Sayre, of 2516 Hoagland avenue, reported that some one had entered his residence through a cellar window and had stolen a gold watch worth \$125 and a long chain.

WILL USE OLD RAILS.

Washington, July 2.—For the purpose of reinforcing concrete work in constructing locks on the Panama canal the engineers in charge have decided to use rails which are no longer fit for use on railroads. About 7,000 tons of this kind of rails, including old French track and American rails so badly bent that they are no longer useful as track, have been collected on the isthmus and will be put in the concrete work of the locks. The effect will be to strengthen the structure considerably.

Even English Eights Are Occasionally Prostrated When They Are Forced to Their Utmost Limit.

HOW CAMBRIDGE COLLAPSED IN THE LAST RACE

Every Man in the Cambridge Crew Keel Over in the Last Race.

Not so very long ago an English rowing authority, in contrasting the systems which prevail in the United States and in England, scolded our coaches for forcing their charges too hard in training, with the result that it has been the exception, according to the English theory, that the American

eight have not been prostrated at the end of a race.

Very frankly it must be admitted that many a college eight has been "baked" at the end of a race in the United States. It has not necessarily been the winner. Sometimes three or four eights have been well used up. There is no athletic achievement which the Americans undertake that is harder than rowing four miles over a "varsity" course.

On the other hand, there have been races here in which not a crew was

overcome at the finish. Yale and Harvard have rowed proudly over the line at New London with every man upright in the boat. Cornell and Pennsylvania have done the same thing at Poughkeepsie. Some of our best athletic clubs have boasted of eights that did equally well in races at shorter distances, but under trying conditions.

That all English crews are impervious to the exertion of a hard and fast race is disproved by the photograph above, which shows the Cambridge crew at the finish in the last race

against Oxford. Every man in the Cambridge boat is prostrated.

It is true that it was one of the hardest races on record between the English universities, but possibly the exertion which was called for was no greater than that which is demanded of the American university crews. In the season of the year in which rowing reaches its culmination in this country the heat is sometimes so trying that it is abominably oppressive.

Rowing experts may haggle until they are blind and deaf as to the

merits of systems, which are taught to crews in different countries, but the fact remains that no rowing system will save a crew from keeling over if the opposing eight is fast enough and possessed of enough endurance to make the other fellows row to their limit.

NOTES OF THE CENTRAL LEAGUE.

Chattanooga offered Third Baseman

Alcock to Dayton and when the Vet management accepted the player word was received that another club held an option that will not expire until Monday and the deal can not be closed until that time.

Manager Knoll has sent Henry Butcher to the outfield at Evansville and will play Gus Dundon at second base. He needed more brains in his infield. He has also signed Eugene Morre, drafted from South Bend last season by Birmingham, of the Southern league.

John Gansel has offered the Dayton club a new pitcher and he may be accepted. The name is being kept under cover as several Central league teams are looking for catching material.

Evansville is still signing players in spite of the fact that the franchise is on the market. During the three days Fort Wayne was there the gate receipts were not more than \$15 above the guarantee at any time.

On account of the street car strike at Evansville the Terre Haute management wanted the games scheduled for today and tomorrow transferred, but President Harry Stahlholder would not consent to the arrangement.

Frank Norcum, who has been doing good service in right for Evansville, has been benched and may draw a release, as Butcher has been substituted on account of his hitting.

Miss Kate Stewart, of Avilla, is a patient at the Lutheran hospital, where she submitted to a surgical operation this morning.

BUNKER'S YOUNG DAYS

The Colonel Tells of How the
Duel Once Flourished.

A GOOD THING AS A WHOLE.

Sits in a Hotel and Hears Enough
Gossip in an Hour That Would Have
Occasioned a Dozen or More Duels
Fifty Years Ago.

By M. QUAD.

[Copyright, 1909, by Associated Literary Press.]

"WHEN I tell you that in my younger days I have witnessed six duels in one day you may realize how the code was once lived up to in this country," said Colonel Bunker as he leaned back in his chair after drinking his cocktail. He ruminated for a few minutes and then continued:

"Of course the duello was abused, as many other things were, but I cannot help but think it was a good thing, taken as a whole. I sat in a club for an hour the other day, and I heard enough gossip in that time to have occasioned a dozen duels fifty years ago. There was a time when men weighed their words before they spoke them, and it was well for the peace of society. There was a time when the name of a lady too loudly spoken might result in a dozen duels.

"For several years I was a roistering blade with other blades. Fashion demanded it, and it was among the roisterers that life was held too cheaply. There were some who swaggered, but one didn't have to swagger to bring about a duel. What was called the point of honor was so finely drawn that it was the easiest thing in the world to come to sword play. For instance, I set in church in a strange town one Sunday. In the pew with me was a young gentleman. When we arose to sing he politely handed me a hymn book. I had a sore throat and politely declined. As we left the church he handed me his card and received mine, and within an hour his friend called on me. A duel was on because I had refused the book. Yes, sir, we went out and fought and were both wounded. I did not ask for an explanation, and he did not volunteer one. I had impugned his honor, know-

I was duly challenged. We met, and I wounded him—and escaped myself. It was a matter of three years before I leaped the cause of his challenge. He had a mole on his chin, and he thought I was looking at it in an insulting way.

"One day I set out to see Majah Ashcroft in the next county. As I neared his plantation I encountered a gentleman on horseback and asked if he knew whether Captain Ashcroft was at home or not. By mistake I got captain for majah. I received a very polite reply and went on and saw the majah. Next day I received a challenge from the stranger, who turned out to be a cousin of the majah's. He resented my mixing of the titles. We fought with pistols, and I put a bullet into his shoulder. Not the slightest ill feeling, but that's the way it went in those days.

"I was at a party one evening and had on a waistcoat imported from London. As I recall it, the garment was a rather striking affair. As the party was breaking up a gentleman came to me and said:

"Mr. Bunker, my friend Mr. Walker bids me say that he doesn't like the color and fit of your waistcoat."

"And please inform Mr. Walker," I replied, "that the style of his shoe buckles is a year out of date."

"We met at sunrise. Our bullets grazed each other and drew blood, and under the code we had to shake hands and be satisfied. My gentleman was killed on the field a year later for having remarked that a certain other gentleman did not use the highest grade of perfume.

"The worst pistol wound I ever received in a duel was brought about in a rather singular way. It was in summer time, and I was seated on the lawn of a friend. A young man rode slowly past the house, but as I was reading a book I gave him no attention. In ten minutes he returned and dismounted and entered the yard. I stood up, and we both lifted our hats.

"Sir," he began, "I rode past this house a few minutes ago. You did not notice me."

"I am afraid not," I replied.

"If you had noticed me you could not have failed to see that I have a cast in the left eye."

"I was silent."

"And to notice the cast is to insult me. There is my card, sir, and a friend will wait on any friend of yours tomorrow."

Cures Eczema Quickly

New Discovery Has Revolutionized the Treatment of Skin Diseases.

Nothing in the history of medicine has ever approached the success of the marvelous skin remedy known as poslam, which, it is safe to say, has cured more cases of eczema and skin diseases than any remedy ever offered for these ills.

The success of poslam is not at all surprising when it is considered that even a very small quantity applied to the skin stops itching immediately and cures chronic cases in two weeks. The worst cases of eczema, as well as acne, herpes, tetter, piles, salt rheum, rash, crusted humors, scaly scalp and every form of itch, yield to it readily. Blemishes such as pimples, red noses, muddy and inflamed skin disappear almost immediately when poslam is applied, the complexion being cleared over night.

Every druggist keeps both the 50-cent size (for minor troubles) and the \$2 jar, and either of these may be obtained in Fort Wayne at Meyer Bros. Co., as well as at other reliable drug stores.

But no one is even asked to purchase poslam without first obtaining an experimental package which will be sent by mail, free of charge, upon request, by the Emergency Laboratories, 22 West Twenty-fifth street, New York City.

"I HAD A HEARTY LAUGH."

ingly or otherwise, and I must give him satisfaction.

"At a social dinner I looked across the table and observed that a certain gentleman's necktie was awry. I may have glanced his way twice or three. Next day he sent his friend to me, and

"It seems powerfully silly to you, sub, at this age, but we were living in a different era then. Here was a gentleman wandering about in search of a duel. Perhaps he had made a vow, like a knight of old. It wasn't for me to ask. When his friend arrived I satisfied myself that I had to do with a gentleman, and the challenge was accepted. Pistols were the weapons, and while I wounded my gentleman in the arm he laid me up for three months.

"In my day, sub, no young man of standing was safe from a challenge, and it was very rarely that an apology was tendered or accepted. One might go along for six months without trouble and then receive a challenge over almost nothing at all. It was my misfortune on a certain occasion to be present at a small assembly when a certain young man of wit told a funny story. I was thinking of something else at the time and missed the point. A challenge was the result. We used rapier and were both scratched. Later on I asked my rival to retell the story, and he consented. It was indeed a funny one, and I had a hearty laugh. What did he do but declare that I was no gentleman for laughing so heartily, and I had to challenge him, and blood was drawn for the second time.

"You must realize that the lines of caste were closely drawn. A man in my set could not cross swords with an inferior, no matter what the insult. Our inferiors took advantage of this far more than we did, but on an occasion I damned the eyes of a landlord for a badly cooked bird. He made no reply, but sought the aid of a young man anxious to go upon the field. This young man accented me as I was about to mount my horse, saying:

"Sir, I perceive that you are ignorant of the latest English fashion."

"And what may that be, if you please?" I asked.

"You, sir, are riding a coal black horse, and a very excellent animal he no doubt is, but he does not match the color of your hair, as the latest fashion decrees. I beg your pardon for mentioning the matter, but I find that I cannot endure the total lack of harmony."

"As my hair was a pretty vivid red at that time," smiled the colonel, "it was pretty easy to figure out that an insult was intended. We passed cards, a meeting was arranged for, and at sunrise next morning I put a bullet into his leg. After the affair I found that he had taken the landlord's part under the quixotic excuse that it was the bird I should have damned instead of mine host's eyes.

"I one day met a gentleman on the highway, both of us on horseback, and it was at a spot where there was a bad mudhole. We arrived on opposite sides and halted and raised our hats. I gave way to him that he might make the crossing first. He gave way to me. We wasted two minutes in overpoliteness and then put our horses at the spot at the same time. The consequence was that both of us were mud bespattered and lost our tempers. We exchanged cards and fought a duel with rapiers next day. I disabled him, but as soon as he had sufficiently recovered he challenged me again. This time I wounded him with a bullet, but in three months' time he challenged for the third time, and I was wounded and laid up for six weeks—three duels, three wounds, plenty of suffering, and all about a mudhole at that! However, it was all the go, and my young fellows had to be in the swim."

S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, curdled troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S.S.S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthy manhood or womanhood. S.S.S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S.S.S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice free.

The World's Horsemen

One does not realize how important a part the horse takes among the nations of the earth until they are assembled in various groups, to be seen at one time. To see all the various representative horsemen comprising the Roughriders with Buffalo Bill's Wild West in their native land one must travel all over the world. By rare and extraordinary enterprise, Col. Wm. F. Cody and Major Gordon W. Lillie have gone on, year after year, adding to the personnel of his wonderful exhibition until the limit has about been reached. It is therefore a rare privilege to see representatives of all the equestrian nations of the entire world in one exhibition, for the contrasts in their riding methods is, in itself, an object lesson to be learned in no other way. This year the Wild West and Far East presents a small army of Indians, Cowboys, American Cavalry and Artillery, German Cuirassiers, Japanese, Irish Lancers, Royal English Dragoons, Bedouin Arabs, Russian Cossacks, Mexican Vaqueros, South American Gauchos and a group of Western girls. Every person on horseback with the Wild West and Far East is just what he is represented to be, and many of them traveled thousands of miles over land and sea to join the big organization when it began its present season in New York City. In a few years it will be impossible to gather representatives of all these various groups of horsemen and, as realism is the life and soul of Buffalo Bill's Wild West the exhibition must end when its material is exhausted.

An Oriental spectacle of great beauty will be the principal feature with the Far East section of Buffalo Bill's Wild West and Pawnee Bill's Far East combined exhibition. A scene of splendor will be presented in which the customs and costumes of many strange tribes and types will be shown in spectacular pageantry. Hindoo Fakirs, the Whirling Dervish, Arabian athletes, Japanese jugglers and many different types of athletic experts and conjurers will participate in a typical Oriental festival of interesting diversions. Rosal's Musical Elephants will be a particularly diverting feature of the Far East spectacle. They play musical instruments, ring bells in harmony, dance the minuet and do many feats never before attempted by elephants in training.

On Deck

"On deck" means Ready for Action. That's the attitude toward the public of the German-American. We keep in mind that a bank is not a government monopoly. It is a business seeking customers. It is an ancient idea that a bank is hedged about by a divinity which to that which hedge a king. You don't have to bare your head and hold your breath when you enter the portals of our institution. We want your business and don't mind telling you so. We have established a savings department where even the little fellows feel comfortable. Interest paid at the rate of 4% per annum.

REPORT INDICATES ST. LOUIS MEAT INSPECTORS

**Investigators Declare No
Ground Existed for
the Charges.**

Washington, July 2.—The committee appointed by Secretary Wilson, composed of Dr. A. D. Melvin, of the bureau of animal industry, and George P. McCabe, solicitor of the department, which investigated the charges of J. F. Harms that the federal meat inspection service at East St. Louis was "rotten and a farce," today report that the inspectors there were honest men and performing their duties efficiently and that no meat had been passed which was unfit for human food.

The committee state that their investigation was most searching and that it failed to reveal any trace of dishonesty on the part of any employee at the East St. Louis station. It is declared that while there is absolutely no basis for the charge made by Mr. Harms, they will undoubtedly, to a greater or less extent, reflect injuriously upon the foreign market for American meat food products. "It is the belief of your committee," the report concludes, "that the men at the East St. Louis station from top to bottom are absolutely honest and competent; that they are discharging their duty to the service and to the public in a conscientious, high-minded, efficient way, and that no meat is passed from the East St. Louis station bearing the mark of federal inspection which is not in every respect fit for human food."

As a result of the report Secretary Wilson has ordered the summary dismissal of Meat Inspector Harms and Blahof and Veterinary Inspector Michael.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., July 2.—Wheat cables and inland receipts of new wheat in the southwest caused a slump in sympathy with the opening of the market here. Selling was scattered, but chiefly by commission houses. Shorts were fair buyers of the July delivery and that option displayed a steady tone early in the day than the more deferred futures. The opening on July was at \$1.14 1/2 to \$1.14 3/4. Later the price touched \$1.14 1/2 and closed at \$1.14 1/2.

Commission houses and pit traders were free sellers of corn at the start, owing to the continuance of favorable crop conditions. July opened 1/4 to 3/8 lower at 70 1/2 to 70 3/4, sold at 70 1/2 and then declined to 70 1/4.

Renewed liquidation by third holders caused a fresh slump in the price of oats, the July delivery being especially weak. Prices at the opening were 1/4 to 3/8 lower at 70 1/2 to 70 3/4, sold at 70 1/2 and then declined to 70 1/4.

Prices at the opening were 1/4 to 3/8 lower at 70 1/2 to 70 3/4, sold at 70 1/2 and then declined to 70 1/4.

On buying by shorts July advanced to 48 1/2. Provisions were moderately firm at the start, but eased off in sympathy with the weakness of grain. Prices at the start were 2 1/2 to 3 higher than yesterday's close.

The Close.

Prices at the close were as follows:

Wheat—September, \$1.09 1/2; July, \$1.14 1/2; December, \$1.08 1/2 to \$1.14 1/2.

WANT TO ACCEPT BID TONIGHT.

Playgrounds Committee Was Forced to Reject All the First Bids.

The public playgrounds committee will meet this evening in the office of Dr. L. P. Drayer where the members will again receive bids for the building of the city's first public playground at the corner of Holman and Clinton streets. The first bids were all rejected owing to the excessive prices asked. Dr. Drayer states that as soon as the first playground shall prove a success, work on several others will be taken up.

We will sell 200 harvest hats at 10c each this week. This hat sells at "5c in the other stores."

SOCIALIST WARREN SENTENCED. Given Six Months in Jail and Fined \$1,500—Will Appeal.

Fort Scott, Kan., July 2.—Fred Warren, business manager of the Appeal to Reason, a socialist paper published at Girard, Kan., was sentenced to six months in jail and a fine of \$1,500 by Judge Pollock in the federal court yesterday. Several weeks ago Warren was arrested for alleged violation of the postal regulations in sending through the mails a printed offer of a reward of \$1,000 to anyone who would kidnap former Governor William S. Taylor, of Kentucky, and return him to that state.

A motion for a new trial was overruled and an appeal will be taken. The socialists of the country have pledged \$35,000 to support Warren in his defense.

We have just received a great shipment of \$1.00 plaided shirts. They are beauties.
